Prepared for Athul's university presentation

THE JOURNEY

From first visit to final submission.

Follow these six stages during the demonstration.

01 Explore the university

Home, programs, university information and application guidance.

02 Create an account

Register and complete the demonstration verification step.

03 Complete the application

Course, personal details, education, guardian and documents.

04 Confirm the payment

Review the submitted application and simulate the application fee.

05 Take the examination

Read instructions, answer questions, review and submit.

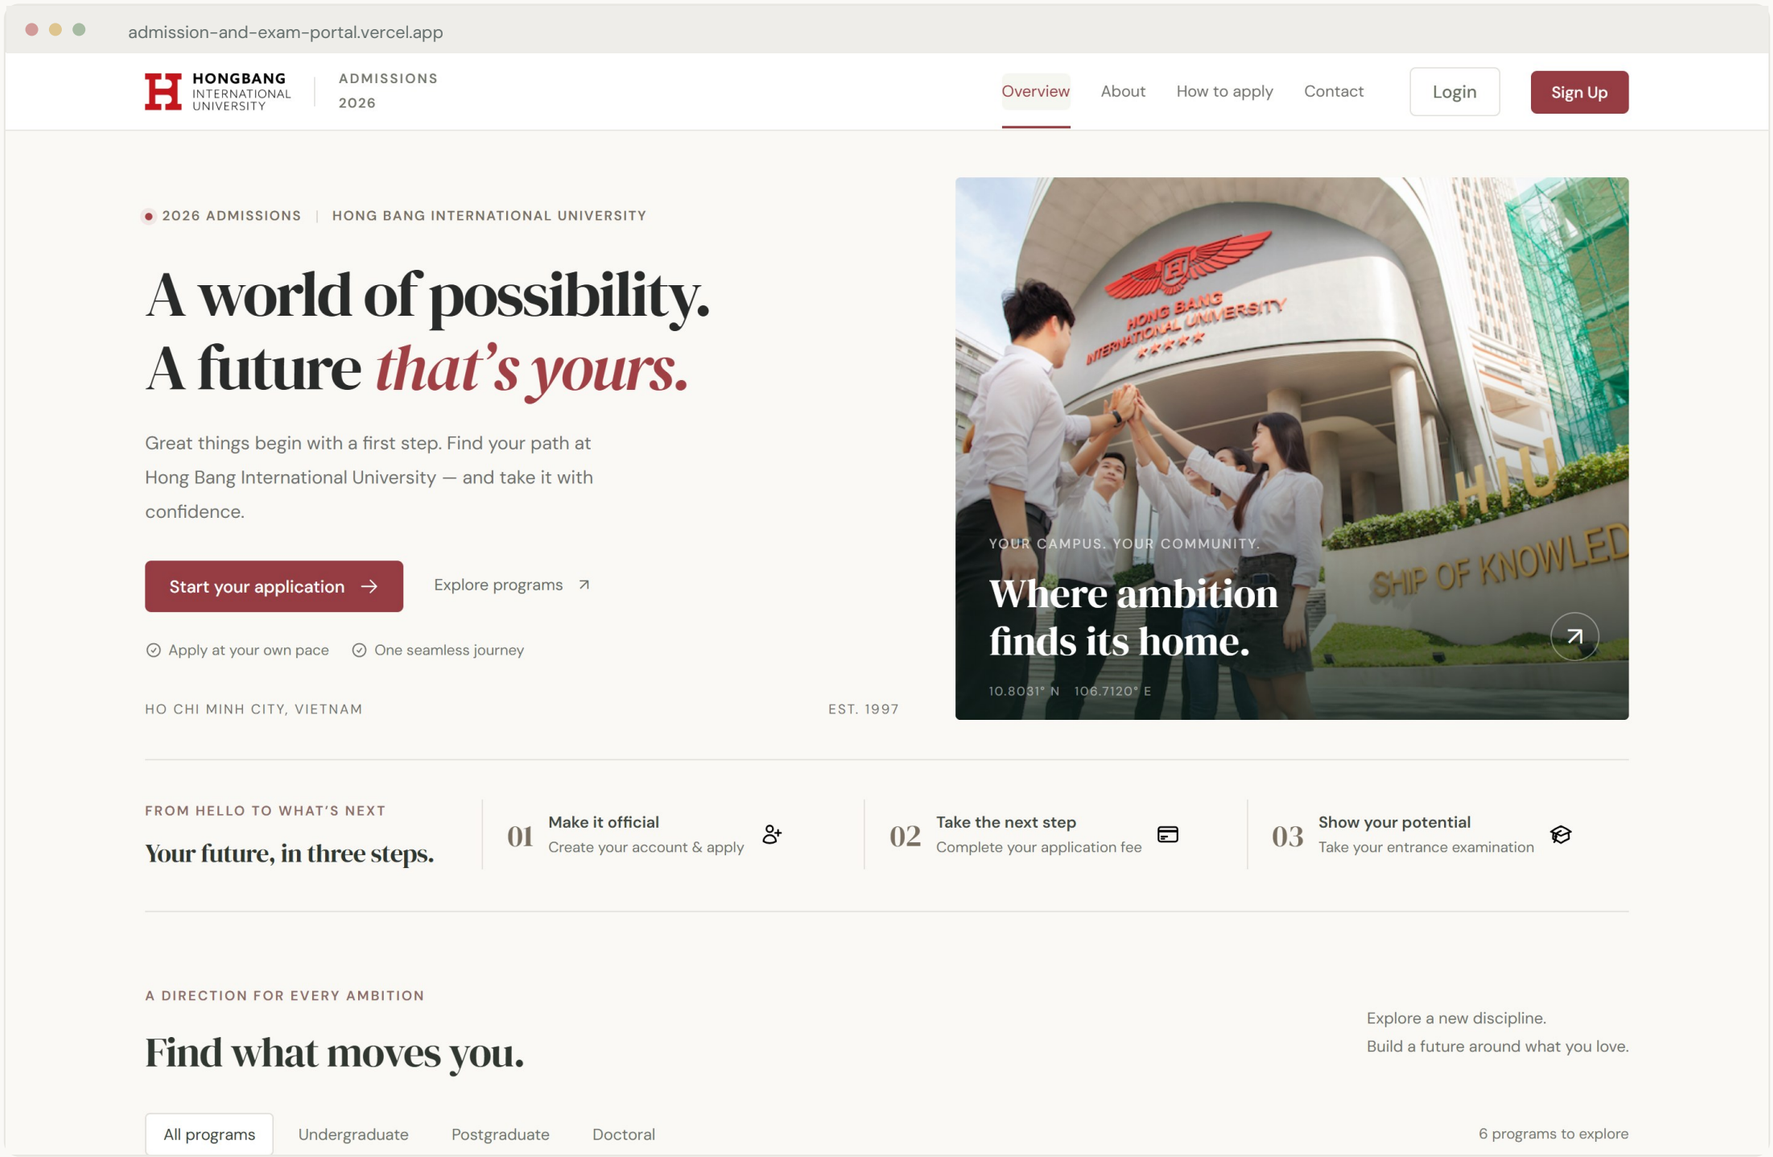

06 Stay informed

See the completion message and revisit submitted forms.

EXPLORE / 01

The first impression.

A clear introduction to the university and a direct route into the admissions journey.

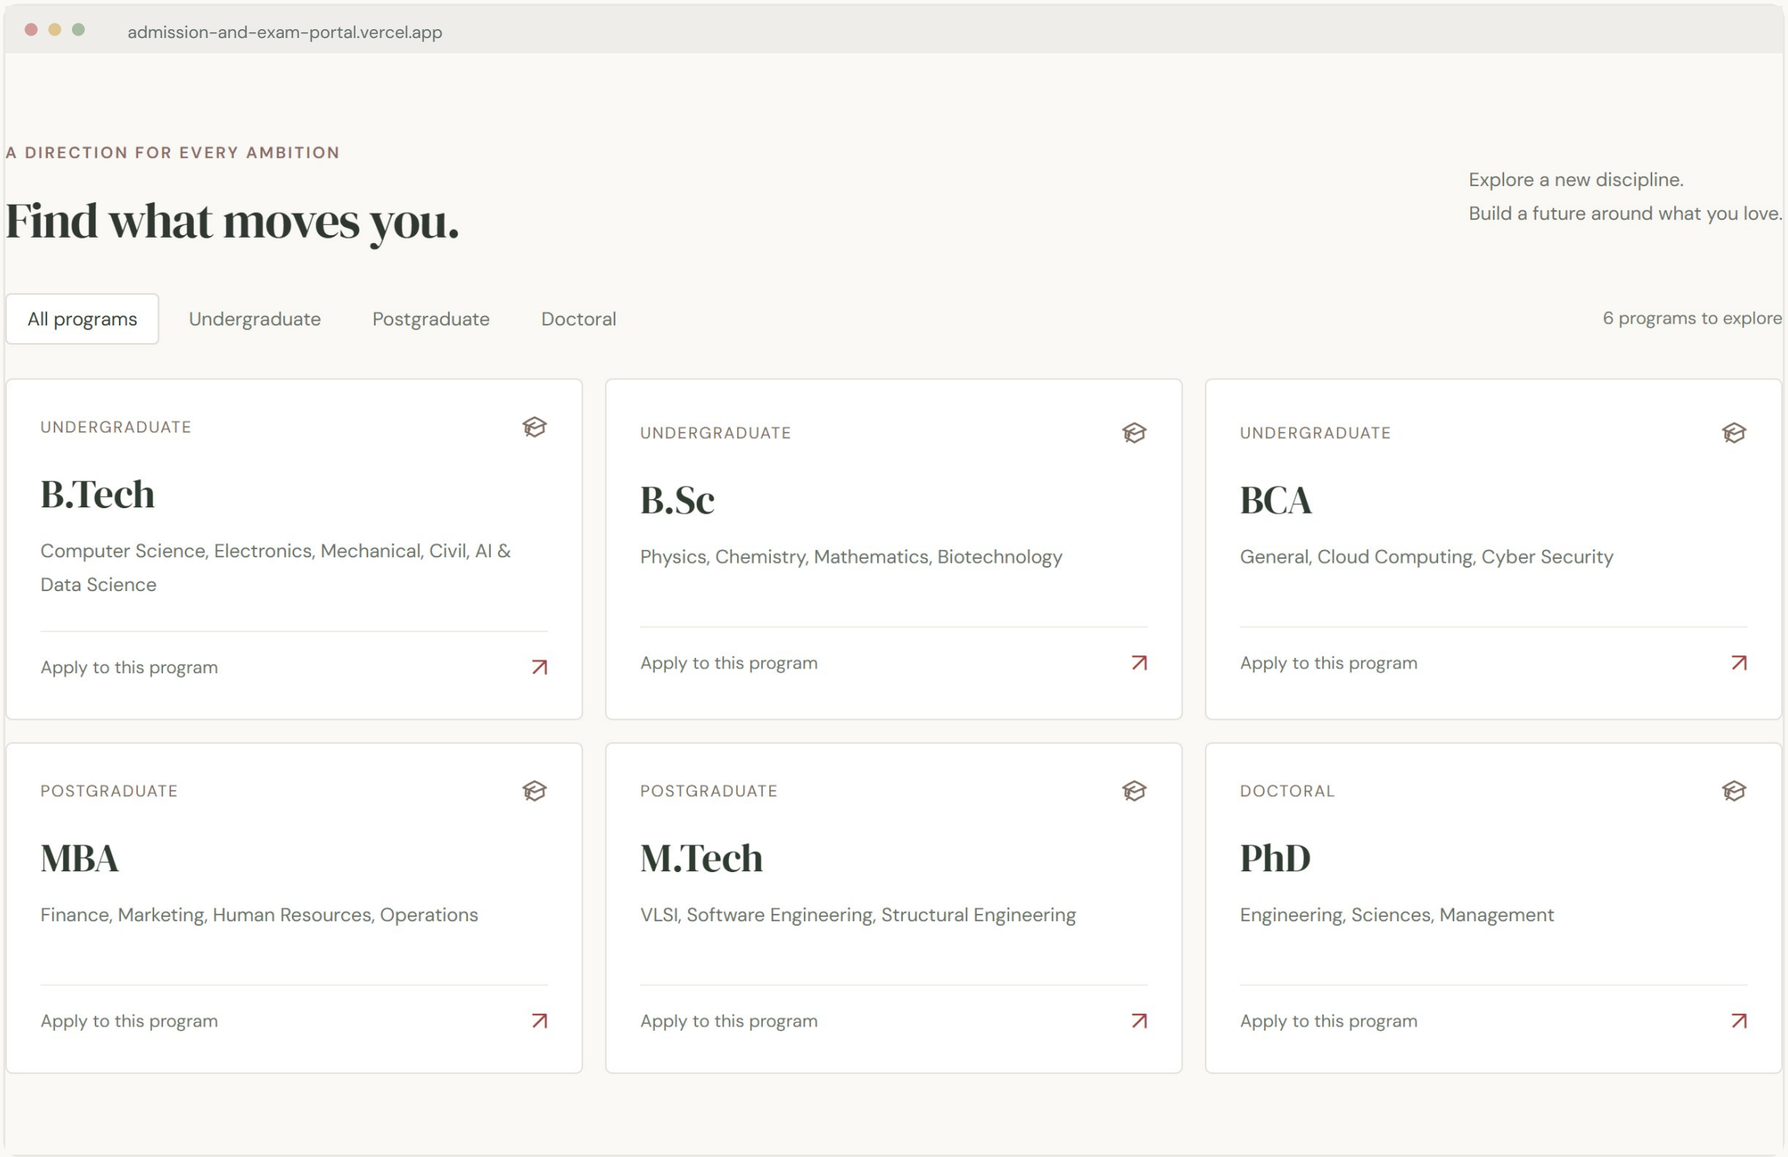

Explore the university or choose Apply Now to begin.

EXPLORE / 02

Find a program.

Browse the available study areas before selecting a course in the application.

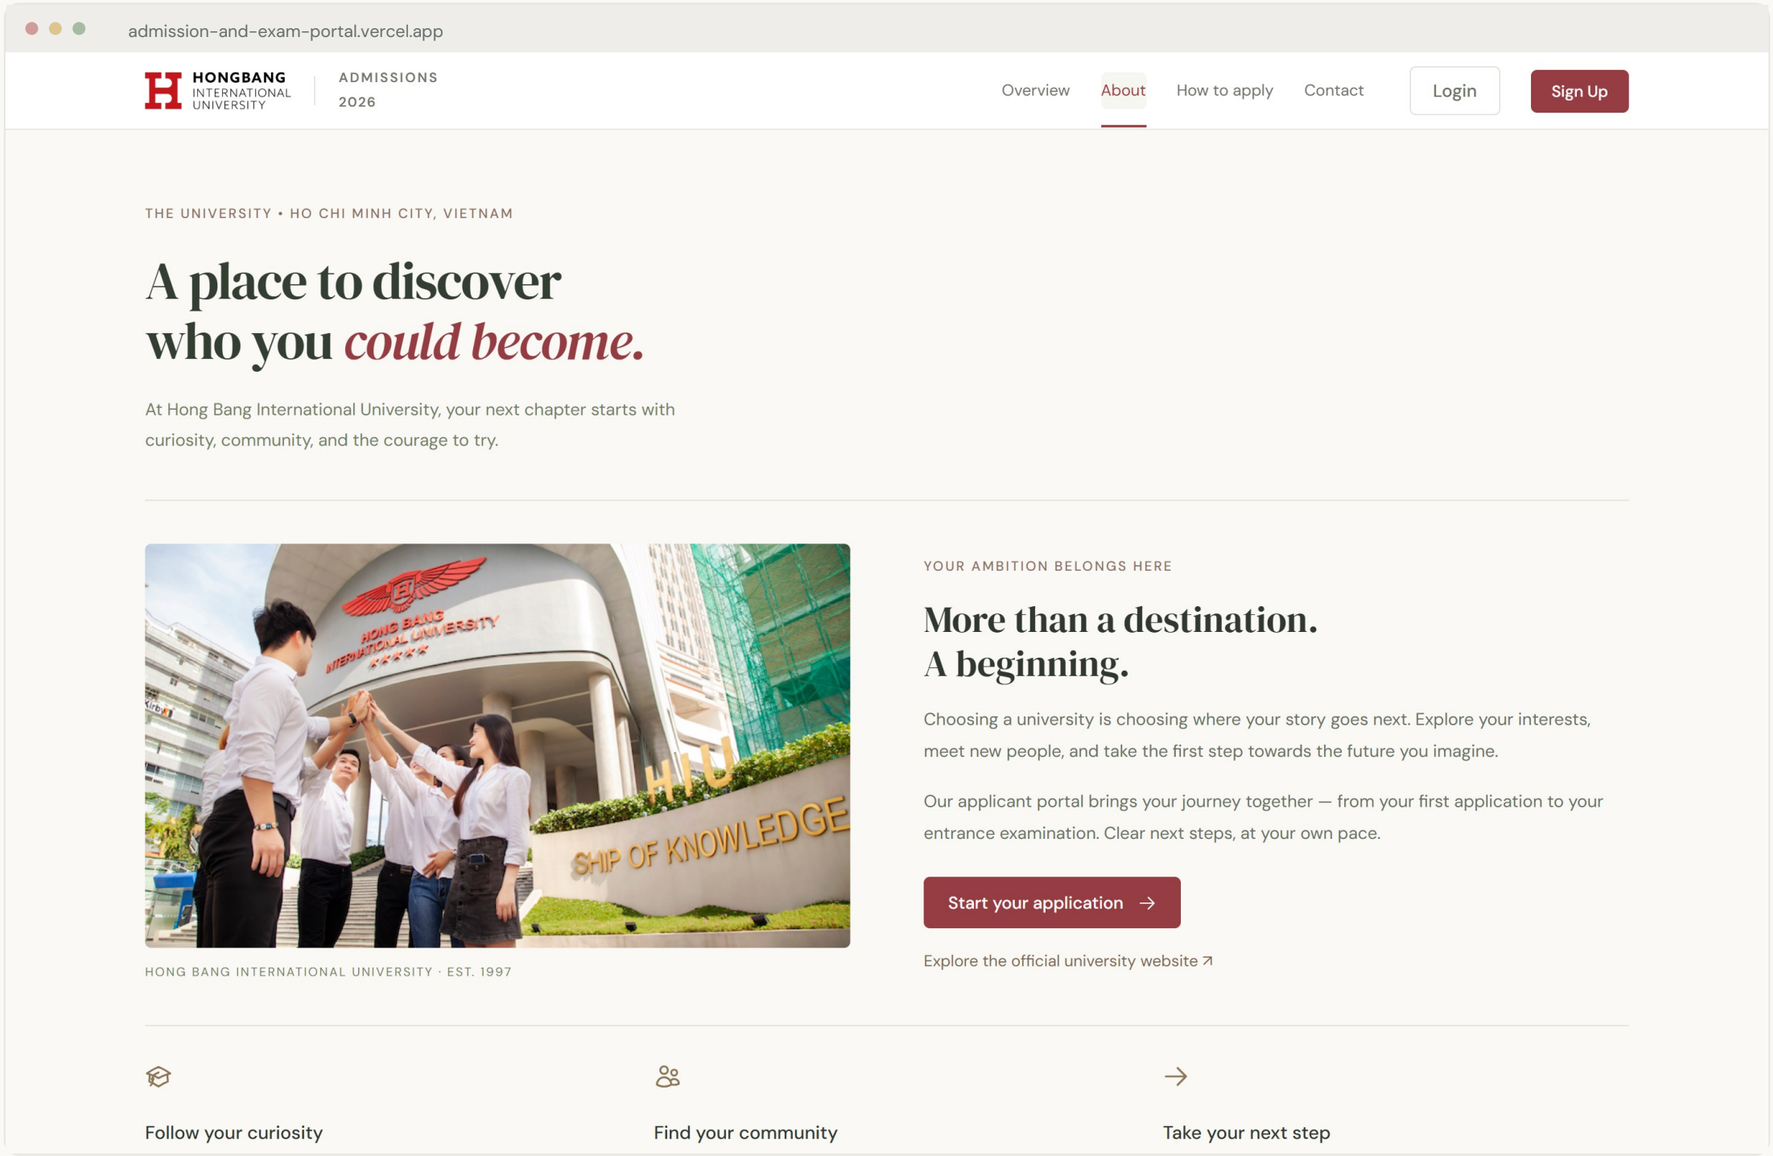

The public program section helps students identify their area of interest.

EXPLORE / 03

Get to know the university.

The About page introduces the institution and its learning environment.

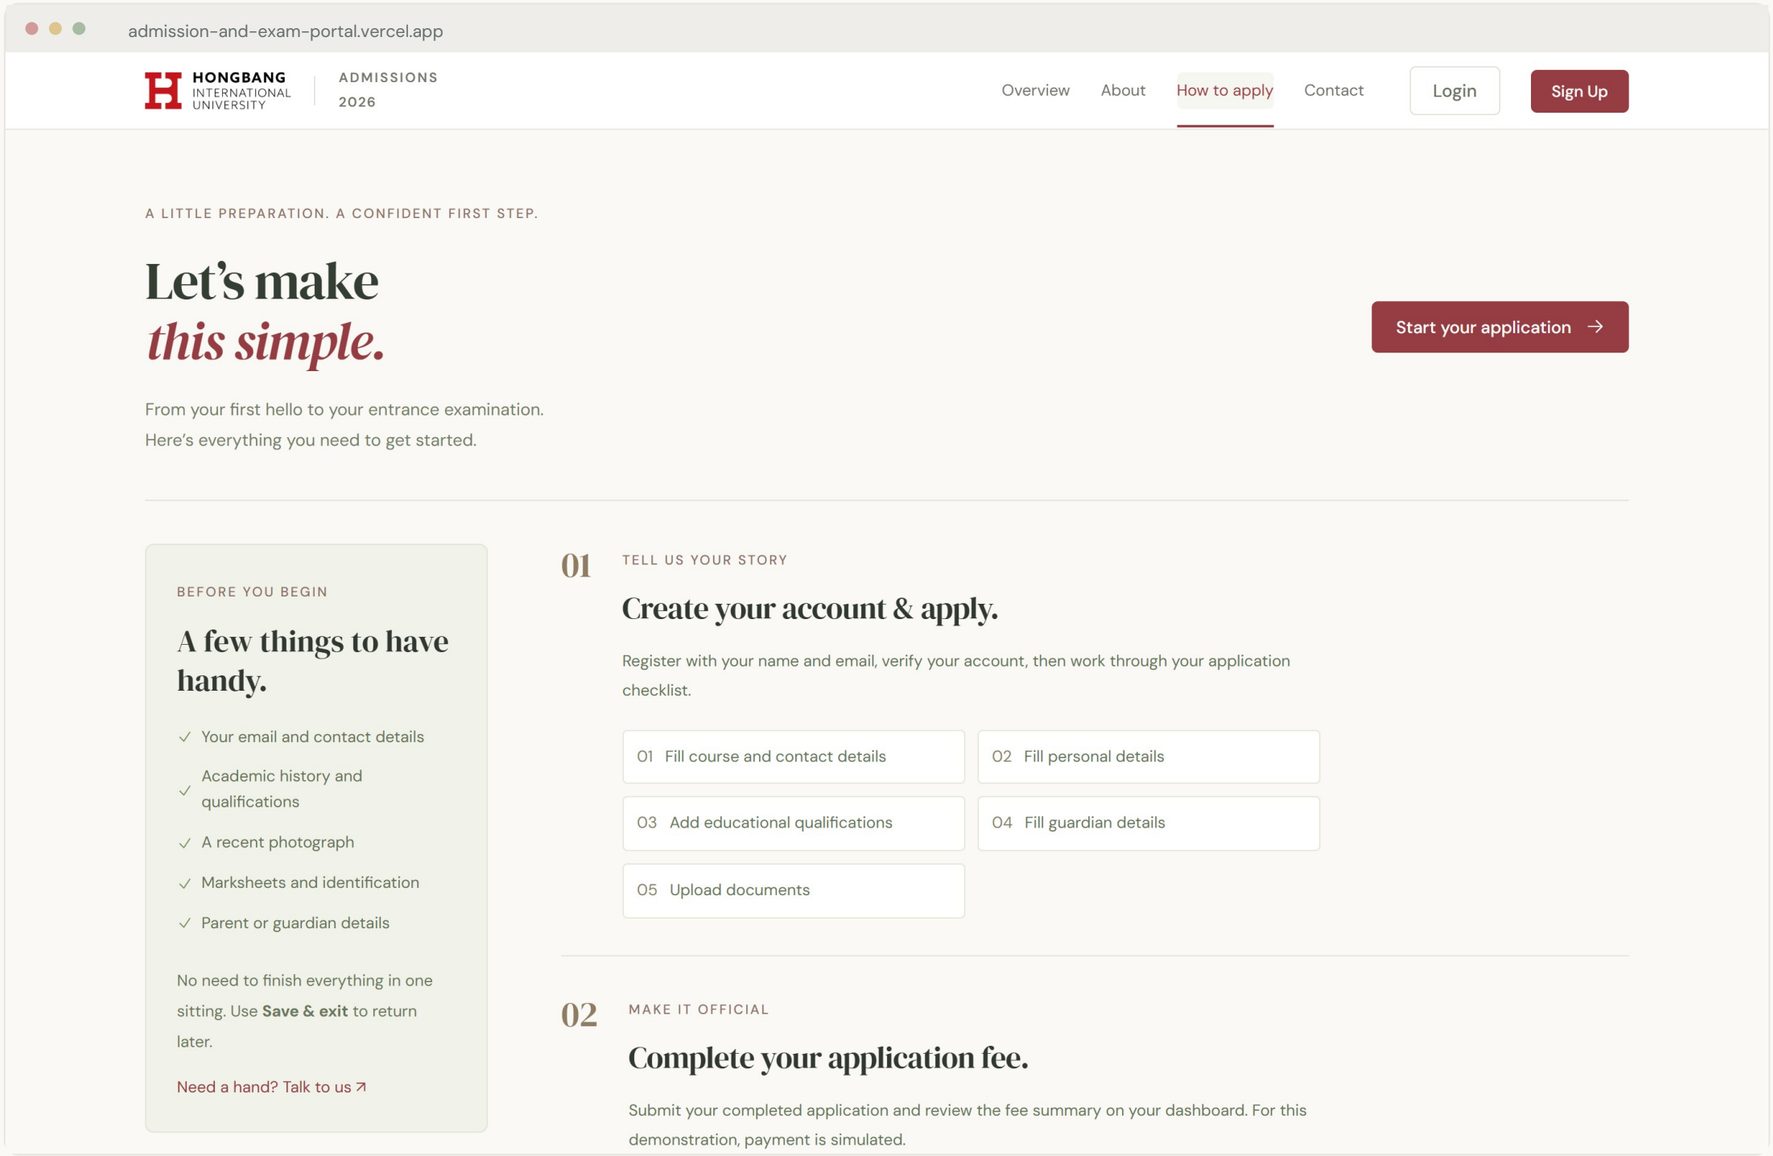

University information is accessible before starting an application.

EXPLORE / 04

Understand how to apply.

A guided overview explains the sequence from registration to the entrance examination.

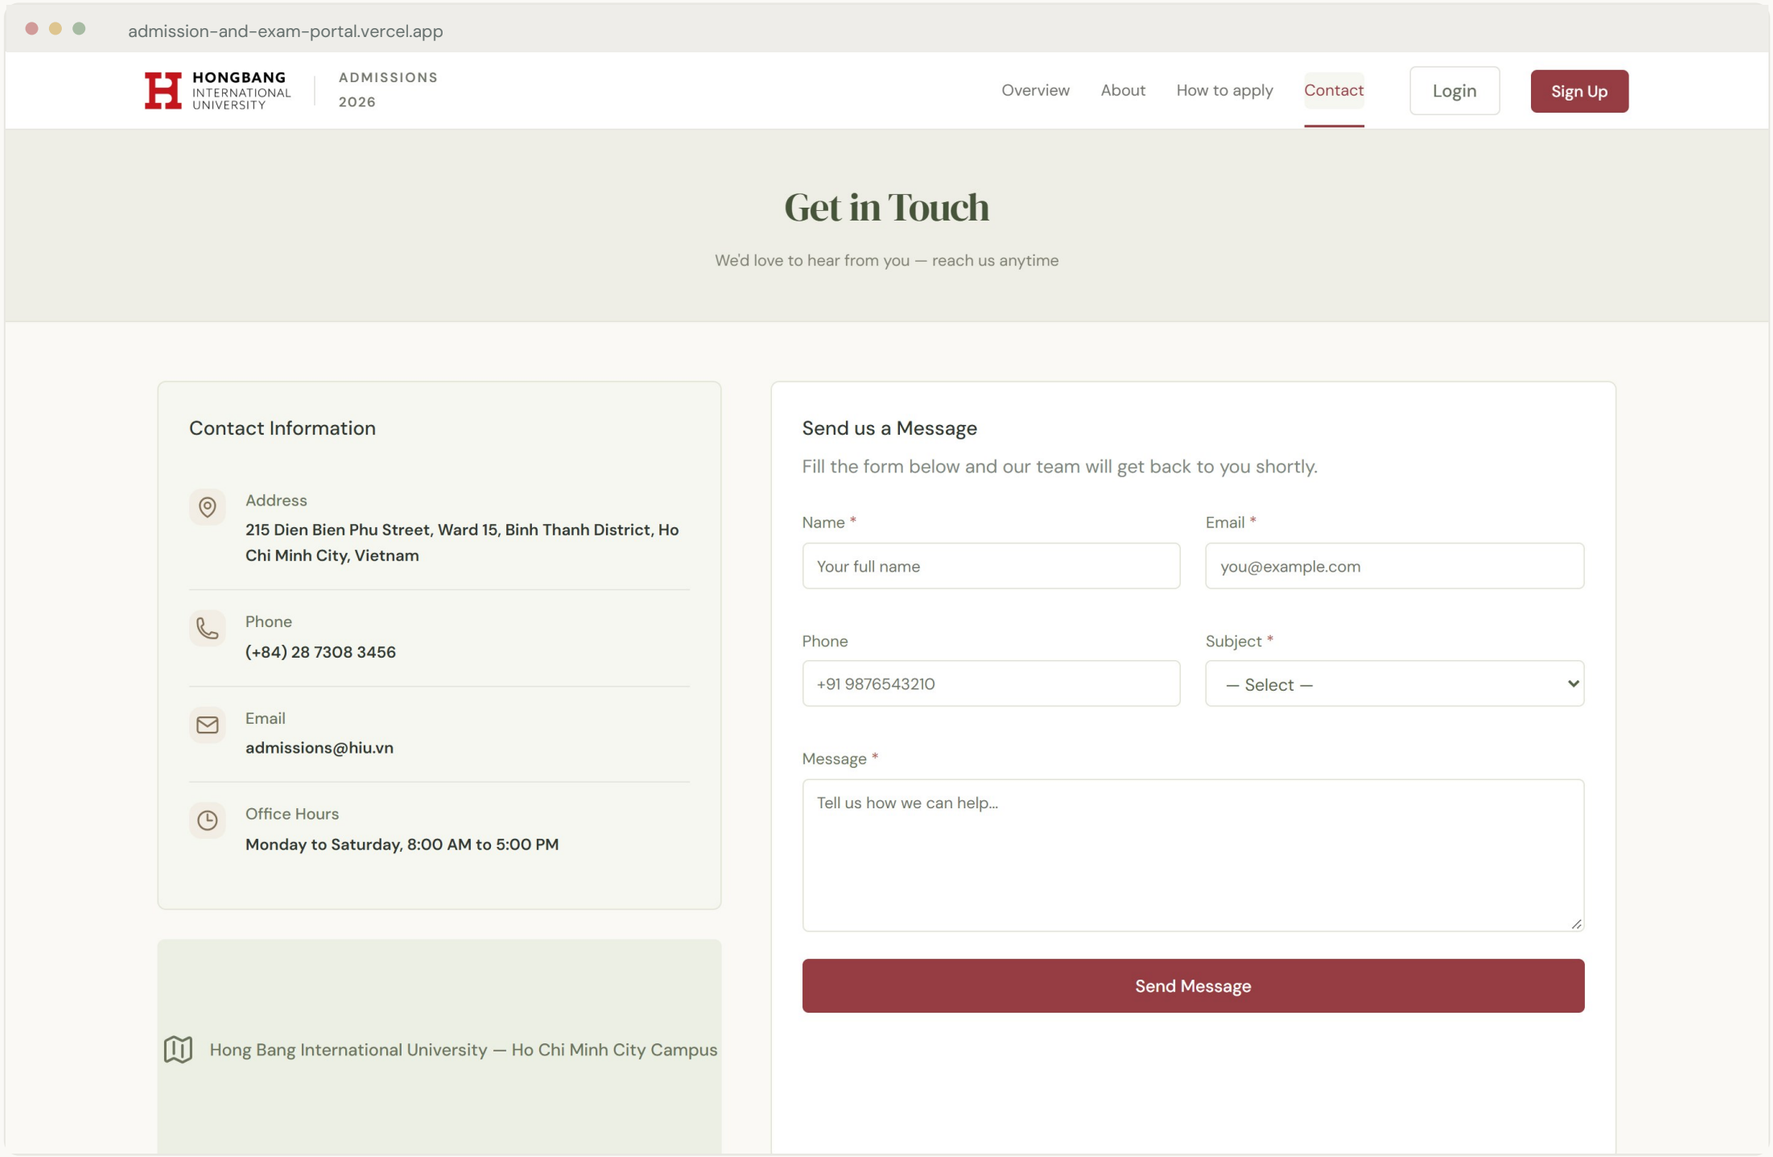

Students can see what comes next before they begin.

EXPLORE / 05

Make contact.

A dedicated contact page brings university details and an enquiry form together.

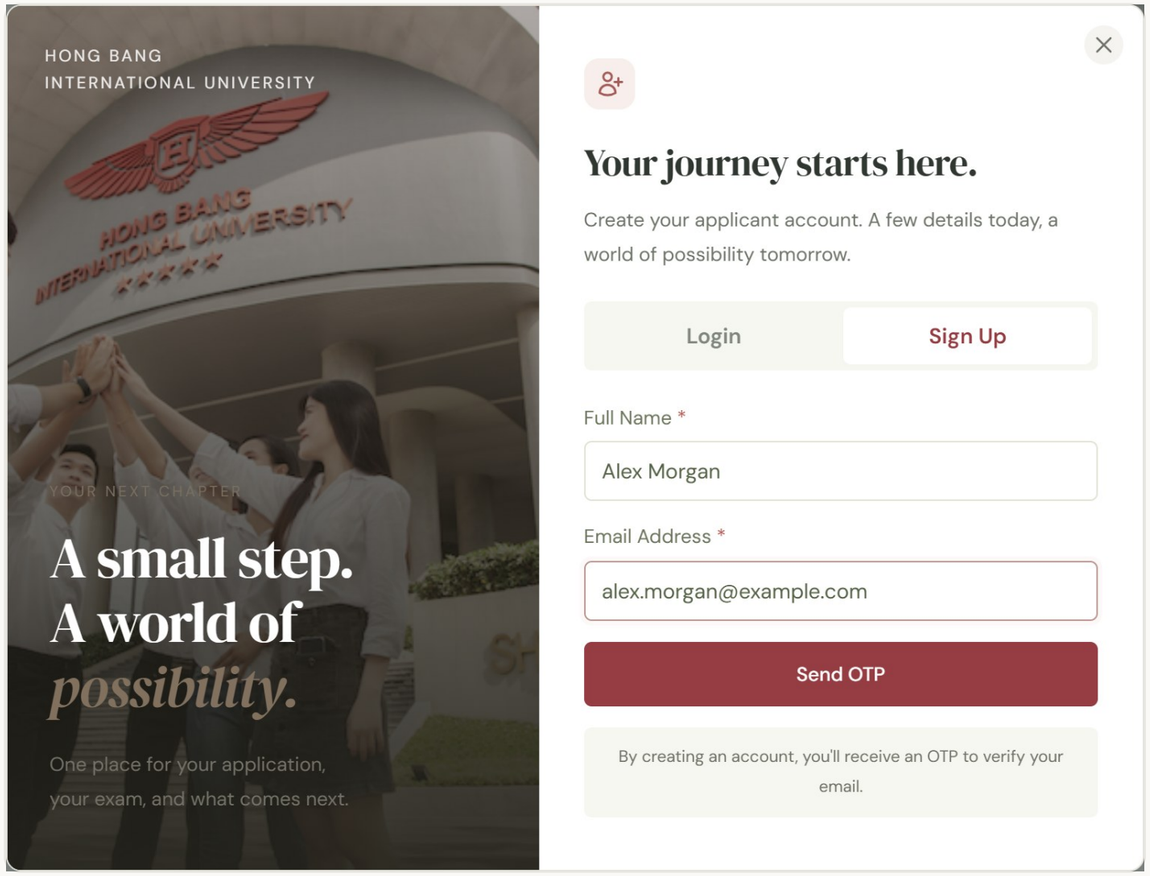

Students can find contact information and the enquiry interface in one place.

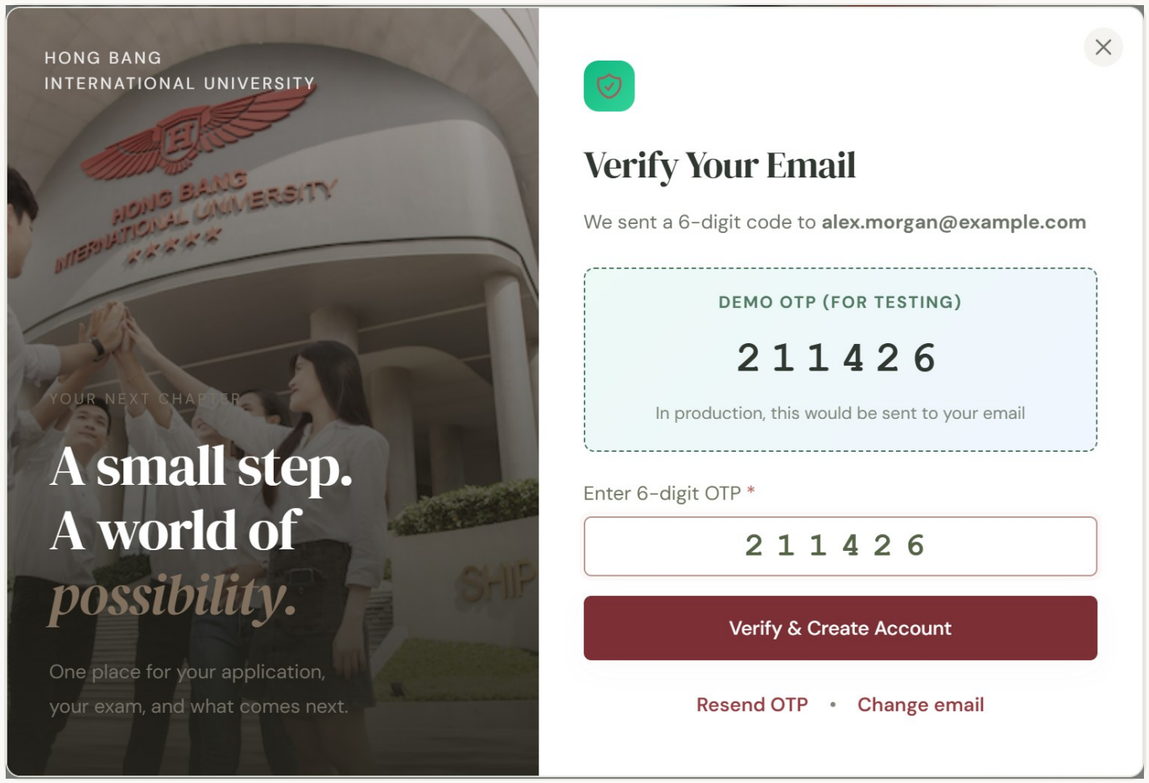

ACCOUNT / 01

Register and verify.

Create an applicant account, then complete the verification step.

1 Enter the applicant name and email.

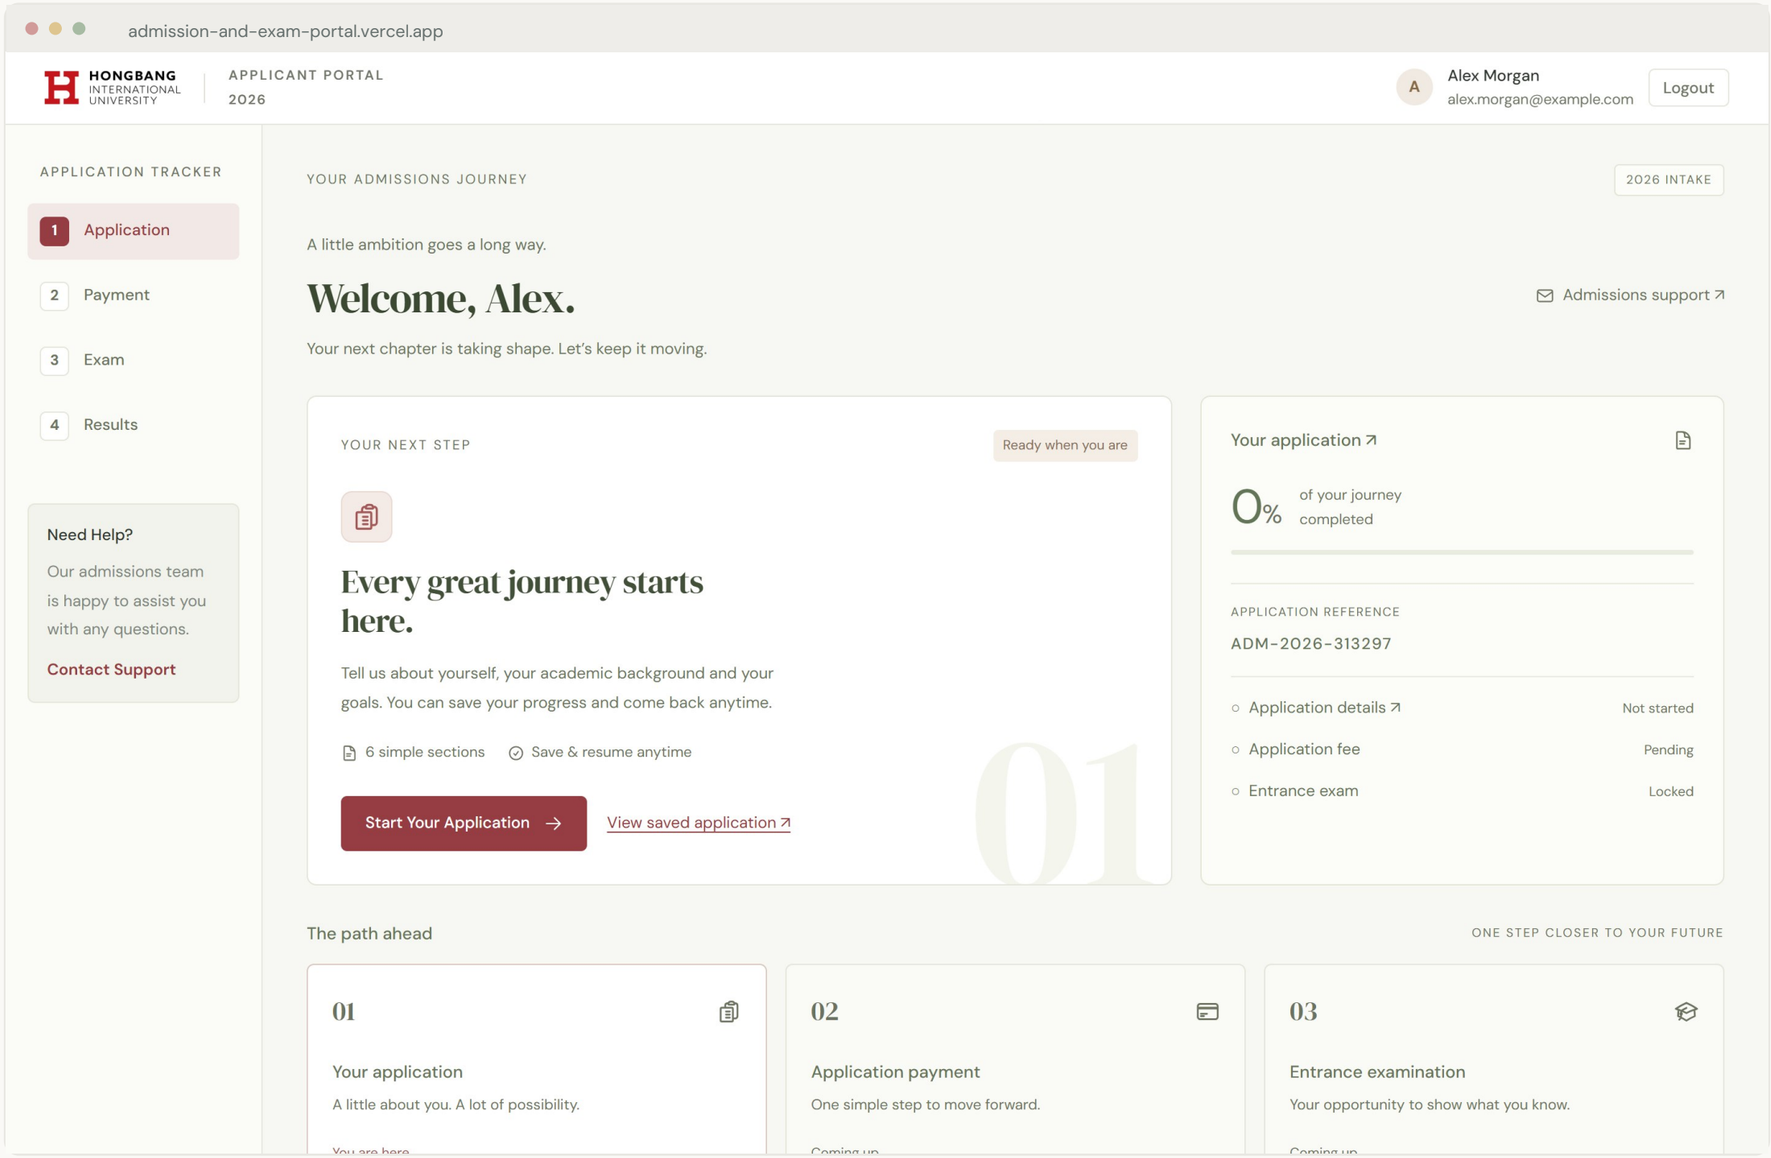

2 Enter the demonstration verification code.

The demo displays a sample verification code on screen. All applicant details in this document are fictional.

APPLICATION / 01

One dashboard for the whole application.

The applicant dashboard shows progress and the checklist of required steps.

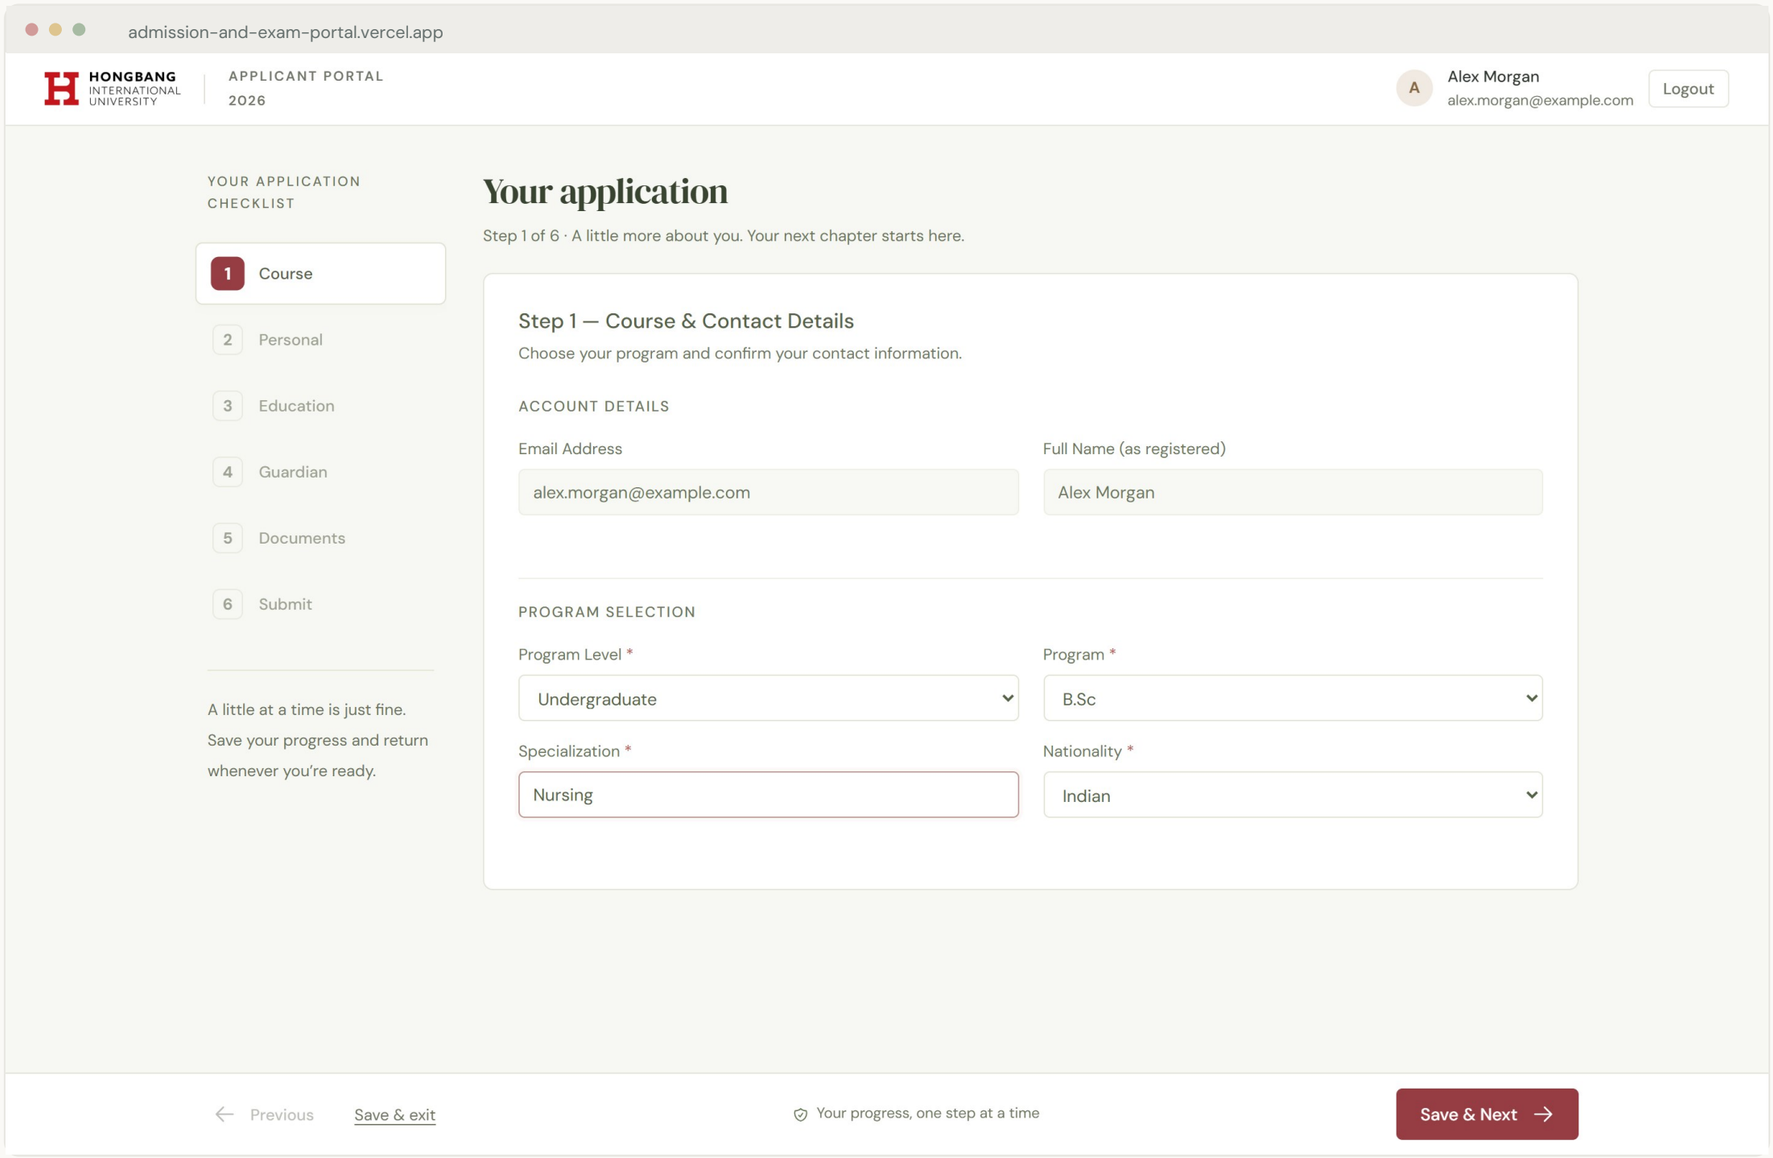

Start the application and follow the checklist.

APPLICATION / 02

Choose a course.

Select the course level, degree and program that the student wishes to apply for.

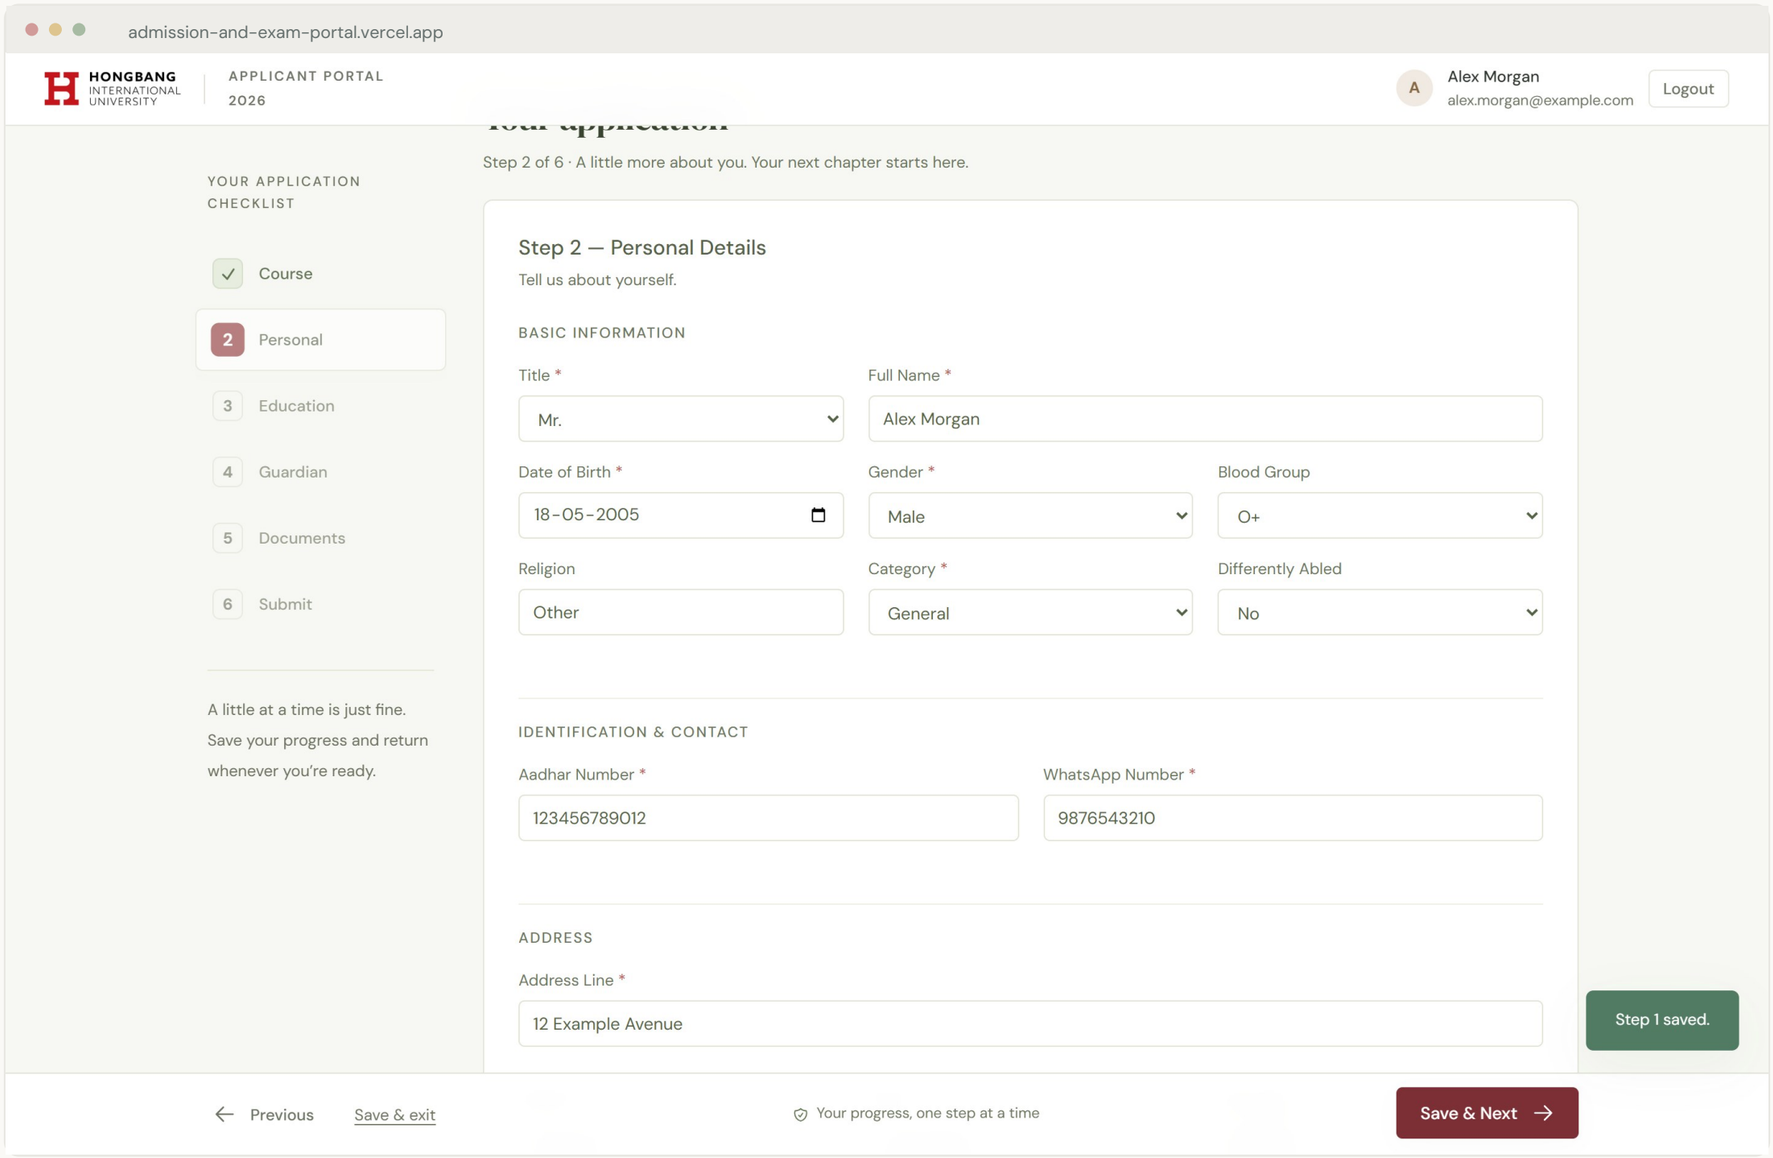

Save the selection and continue to personal details.

APPLICATION / 03

Add personal and address details.

Capture the student's identity, contact information and correspondence address.

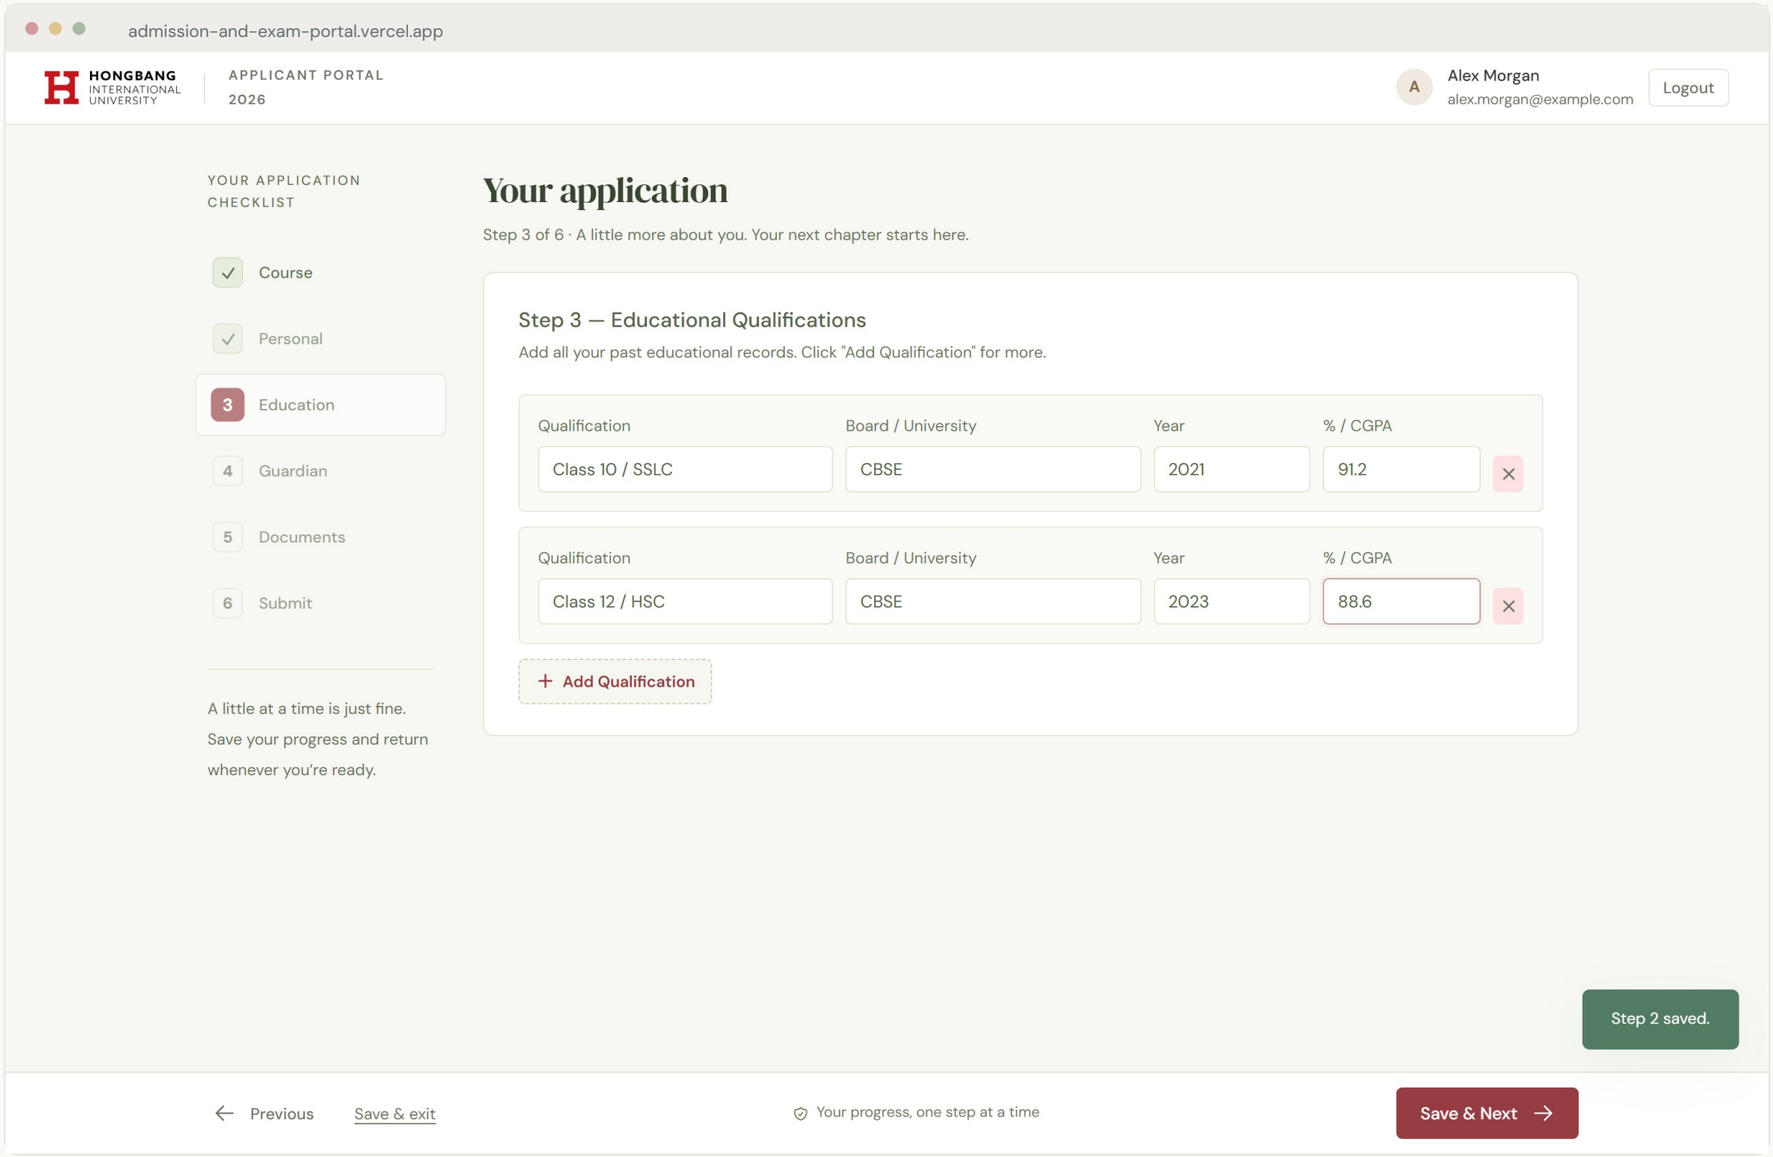

The persistent action bar keeps Save & Next, Save & Exit and Previous within reach.

APPLICATION / 04

Record academic qualifications.

Add school qualifications with the board, completion year and marks.

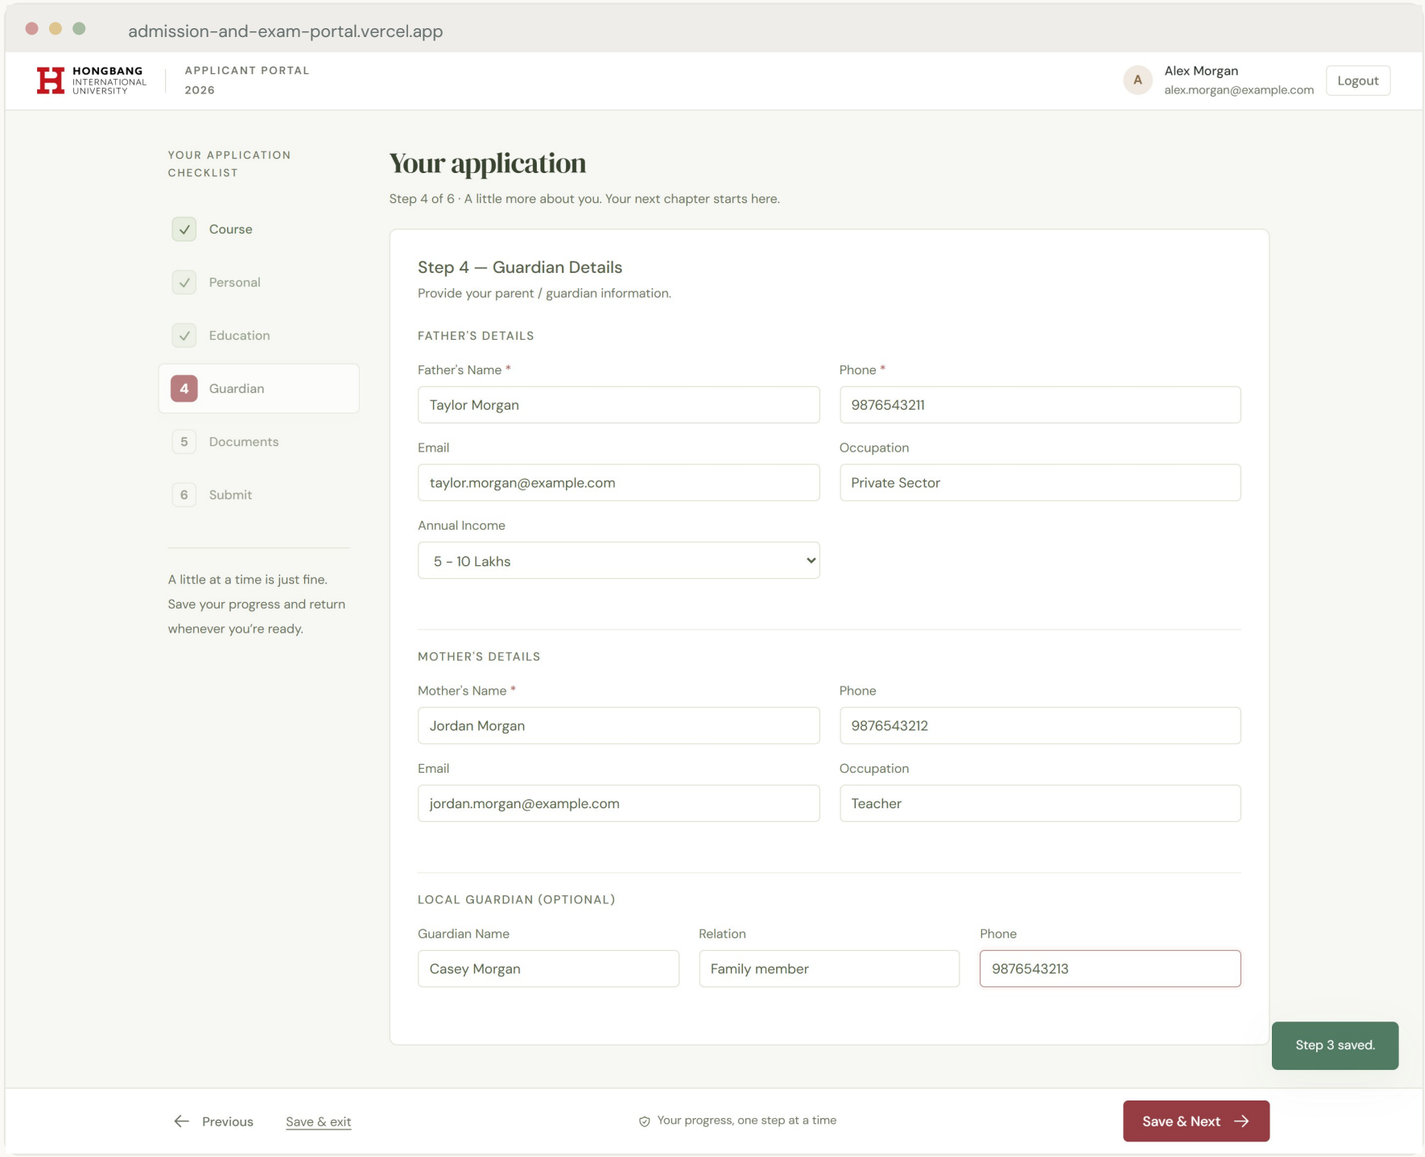

Students can add qualification rows before moving to the next section.

APPLICATION / 05

Provide parent and guardian details.

Collect the family and guardian contacts needed for the admissions process.

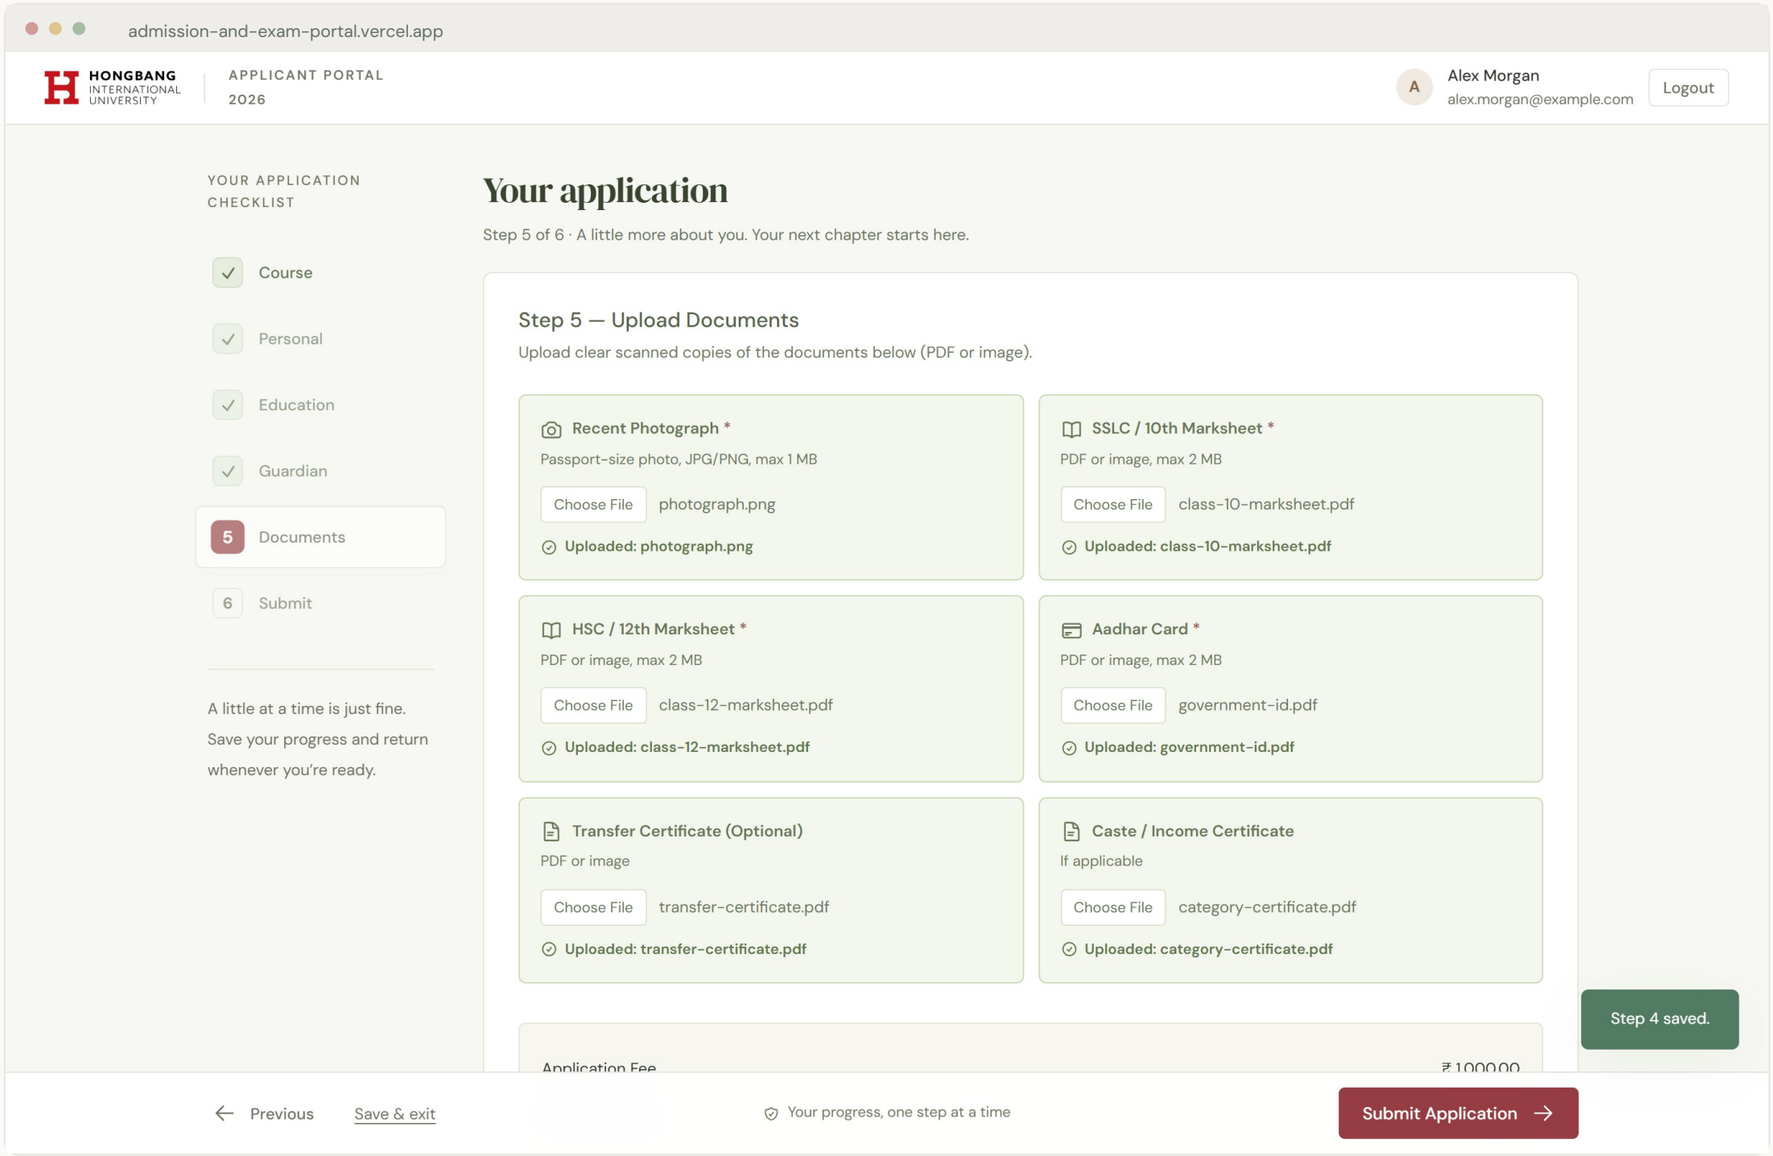

Complete the relevant contact details and save the section.

APPLICATION / 06

Select supporting documents.

The document section brings the required photograph, certificates and identity records together.

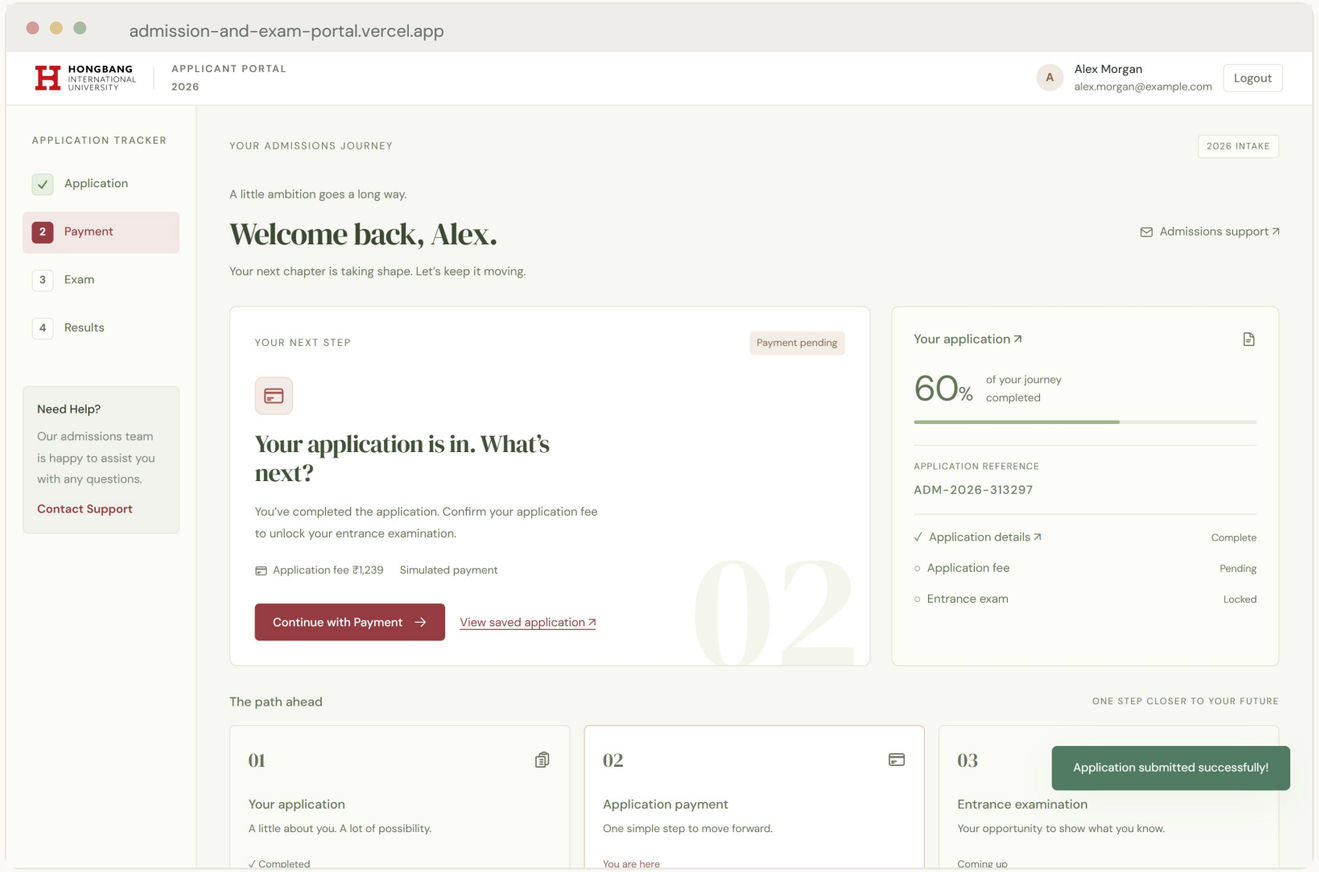

The screenshots show sample filenames for the demonstration.

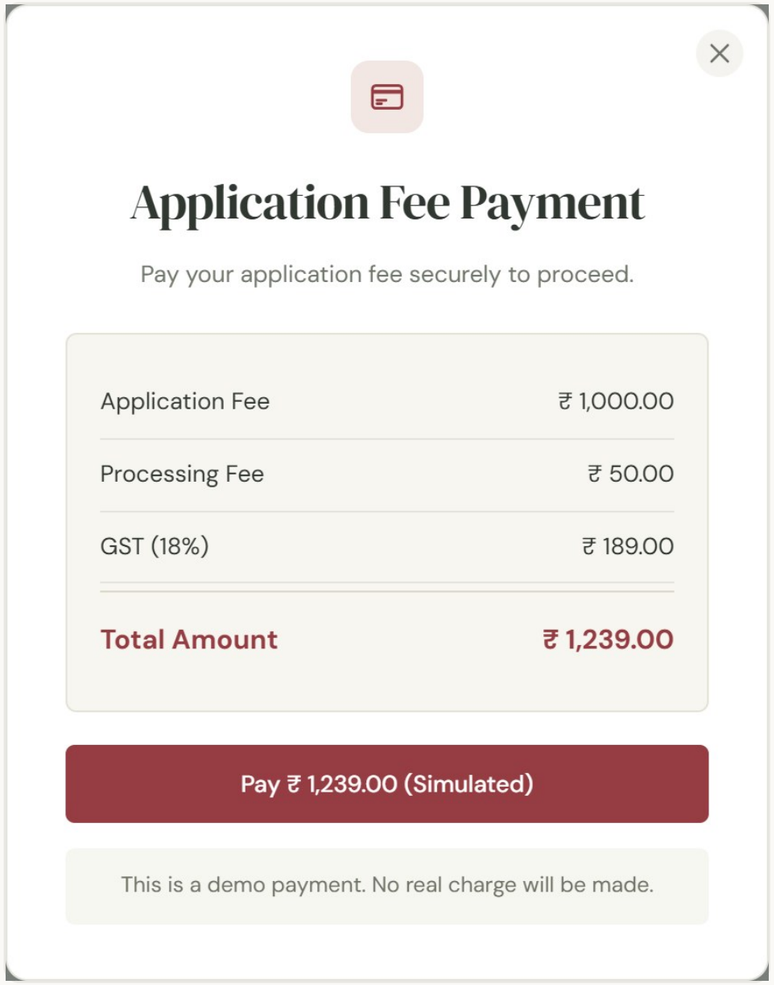

PAYMENT / 01

Submit the application and confirm payment.

The dashboard updates after submission and directs the student to the fee payment step.

1 Application submitted
The checklist records the completed application.

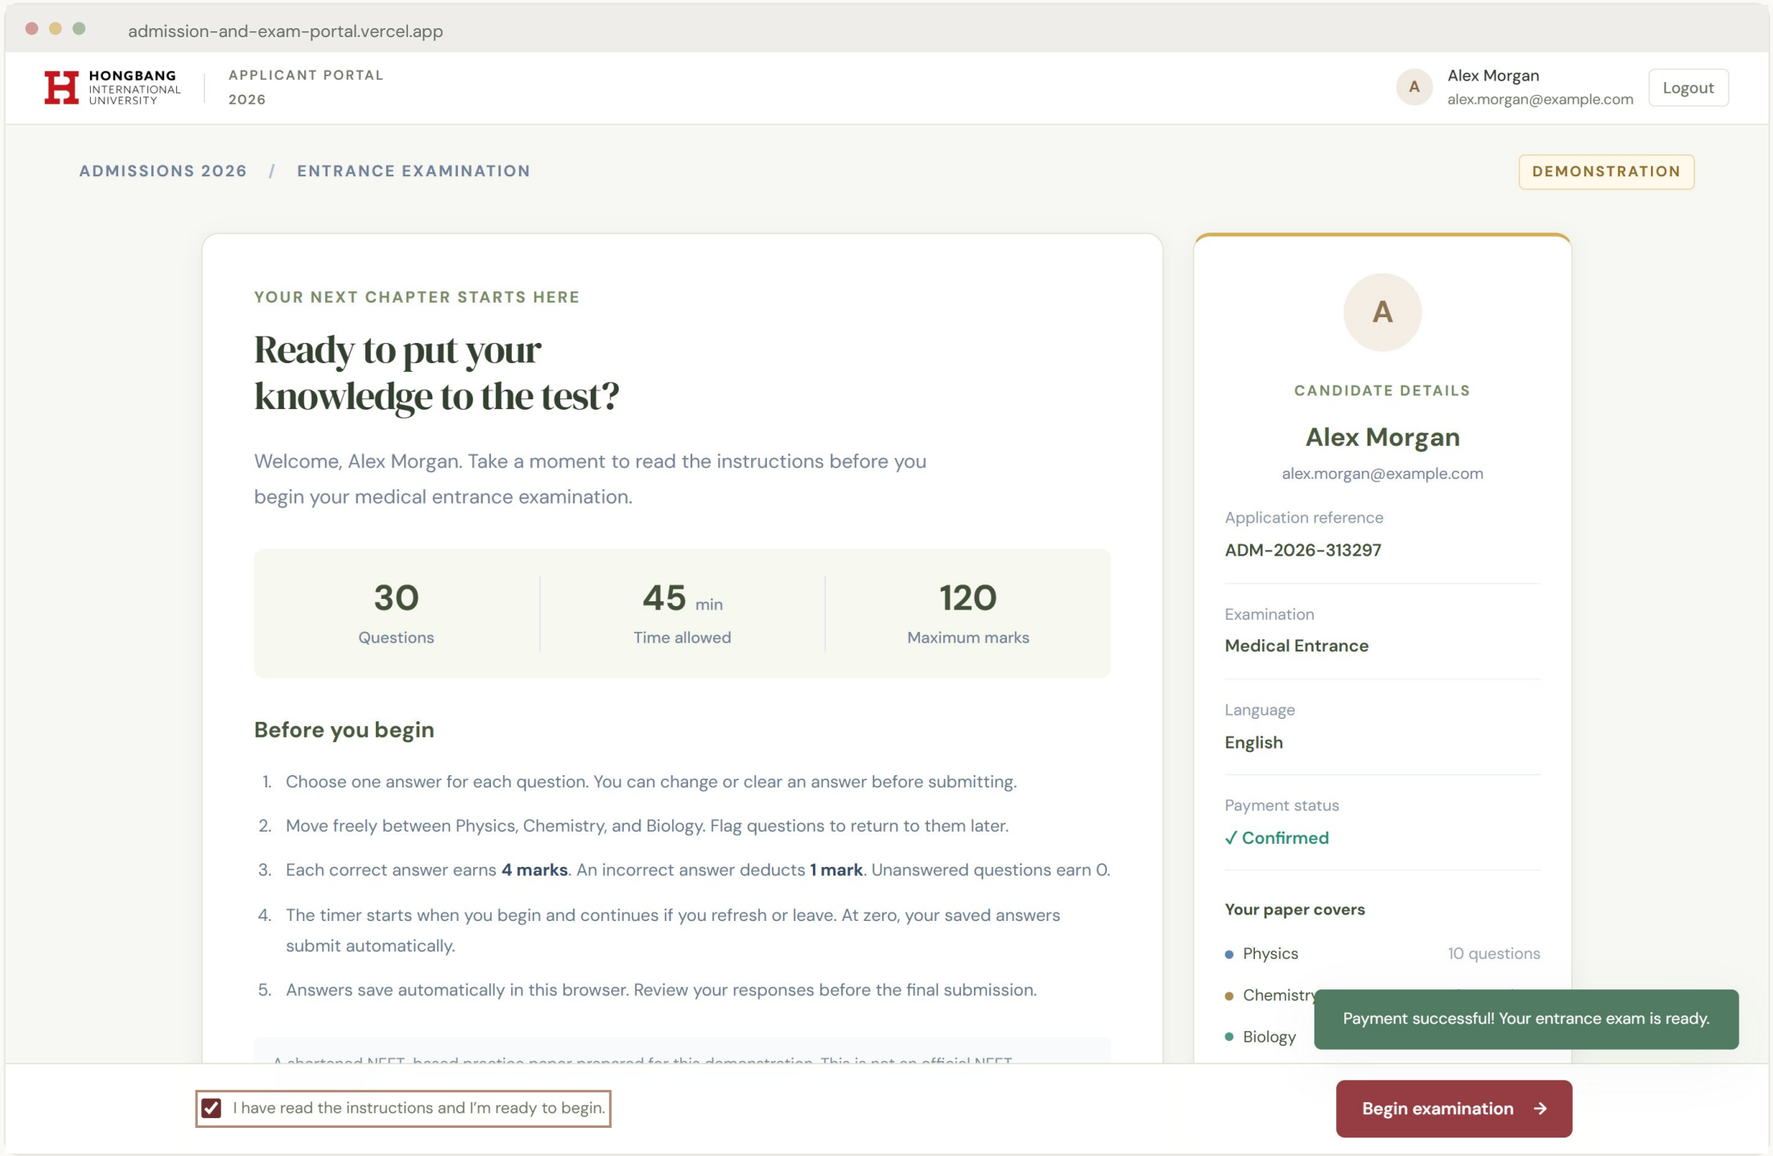

2 Review the fee and simulate payment.

Demonstration only: the payment screen simulates a successful transaction.

EXAMINATION / 01

Read the exam instructions.

Students review the duration, question count and marking instructions before starting.

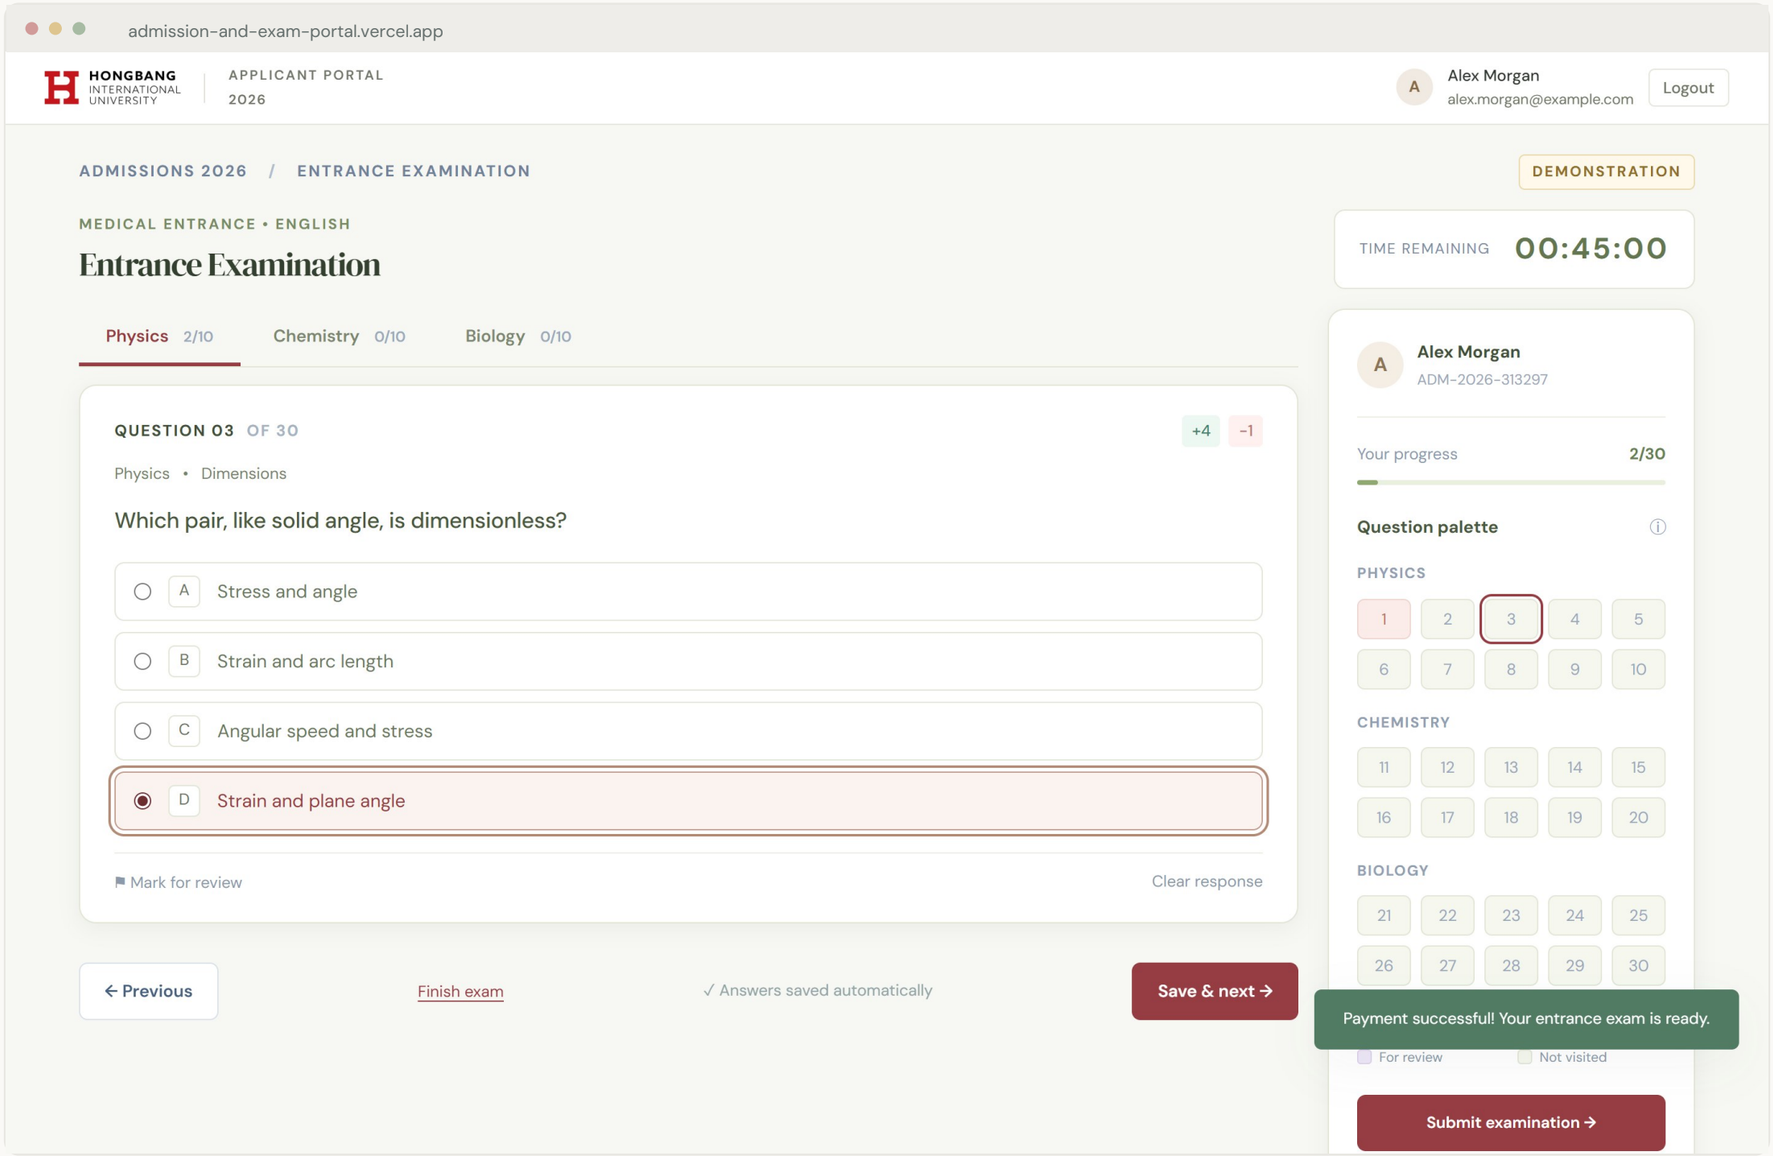

Accept the instructions and start the timed examination.

EXAMINATION / 02

A focused exam workspace.

Answer the sample paper using subject tabs, the question palette and review controls.

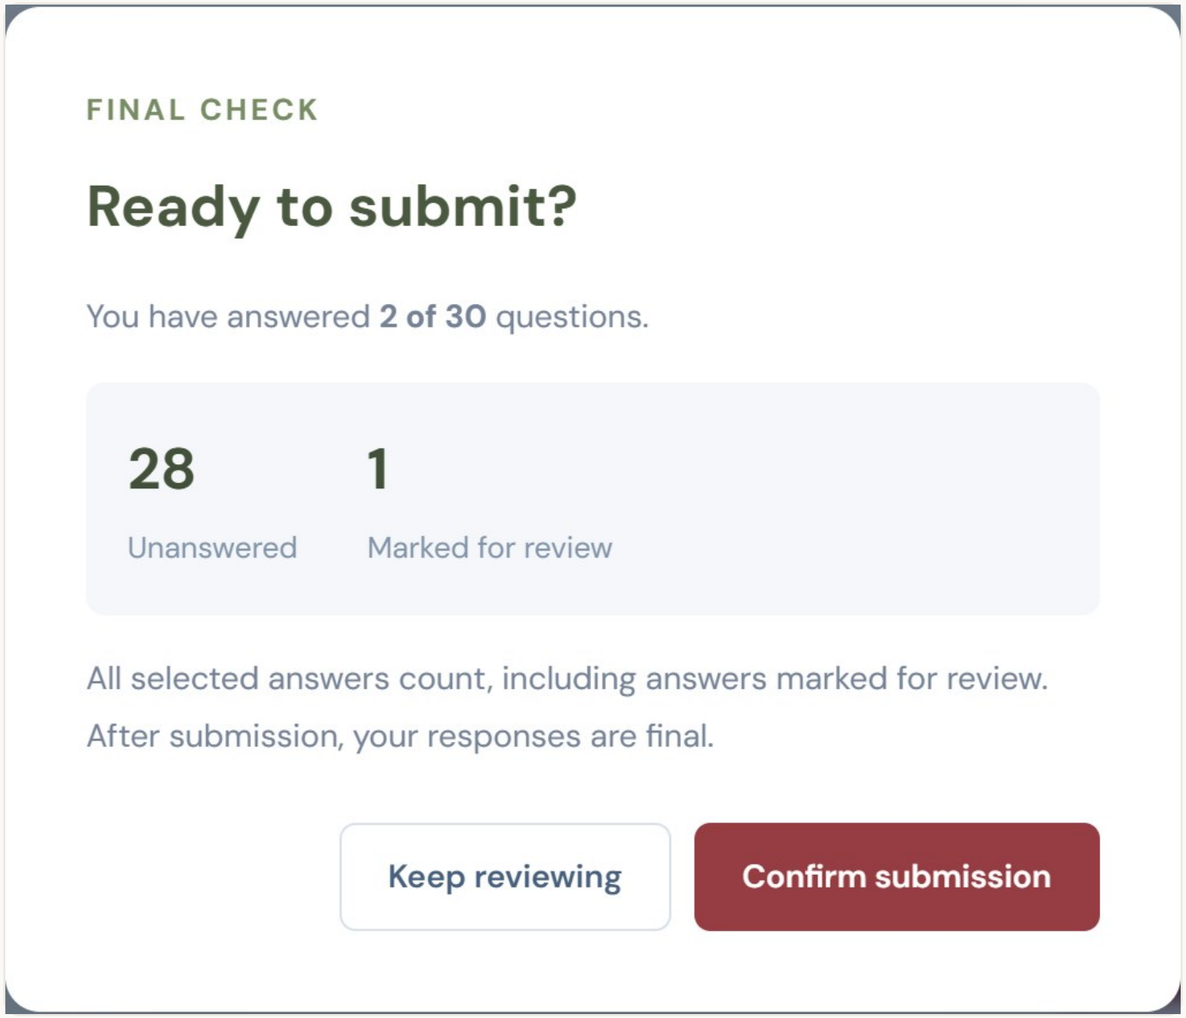

A visible timer, answer selection and review flags support the examination flow.

EXAMINATION / 03

Review before final submission.

The confirmation dialog summarizes progress and gives the student a final decision point.

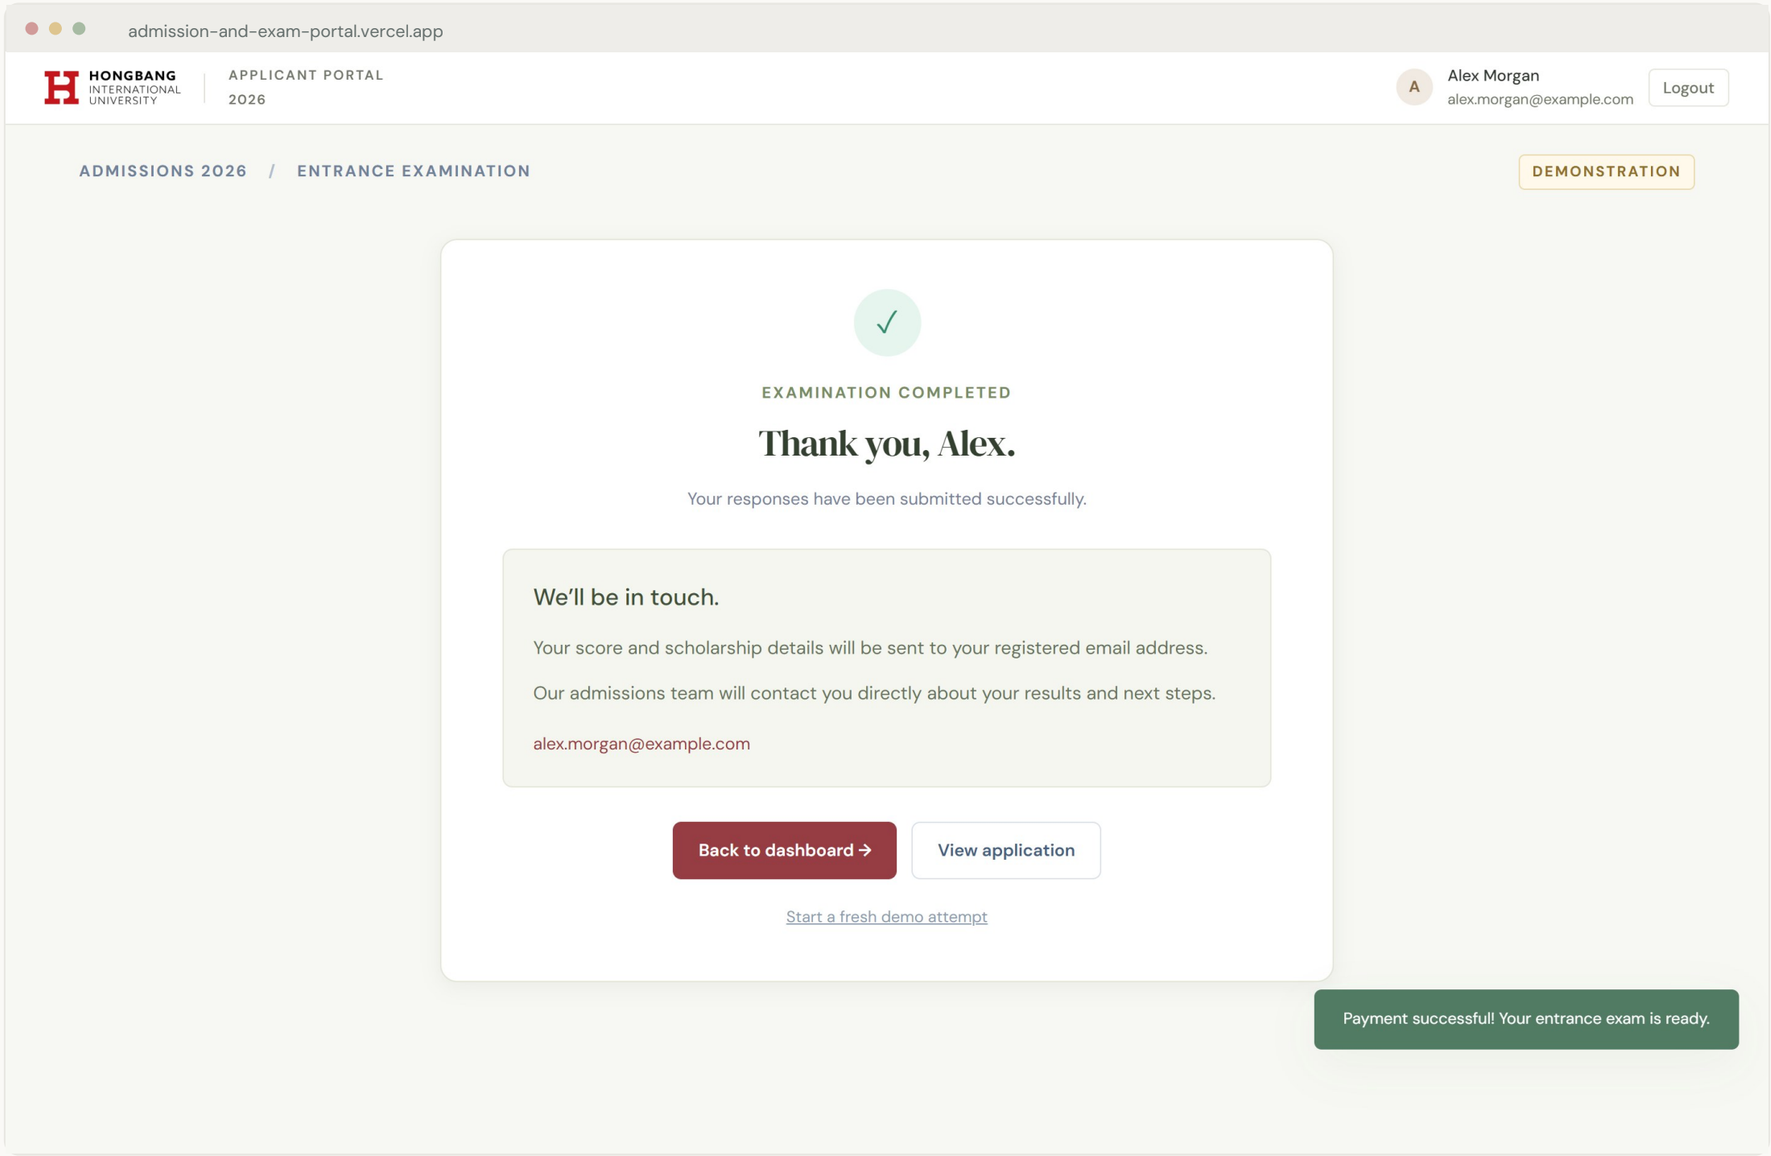

Return to the paper to continue answering, or confirm submission to finish the examination.

EXAMINATION / 04

A clear completion message.

The student receives confirmation that the examination has been completed.

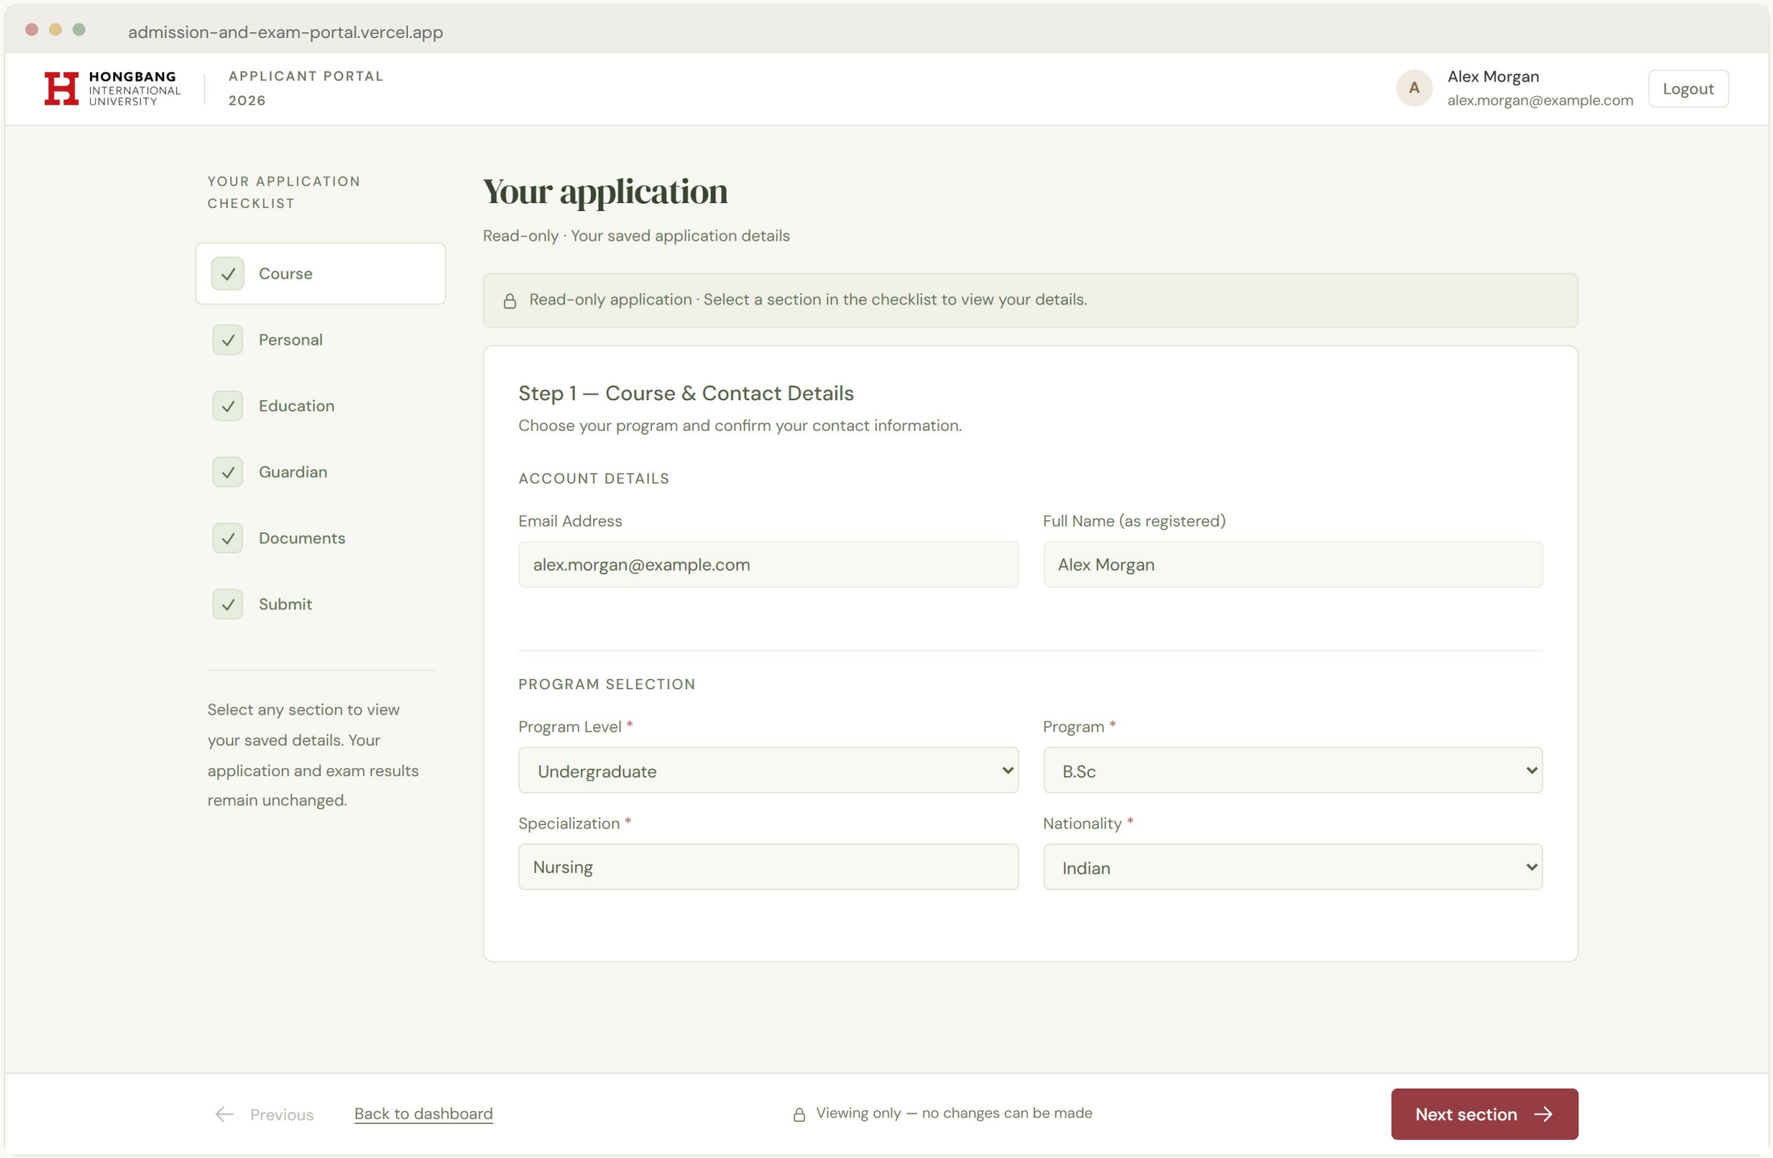

The message explains that score and scholarship details will follow by email, with direct admissions contact.

AFTER SUBMISSION / 01

Revisit the submitted application.

The application checklist opens saved forms for viewing, including after exam completion.

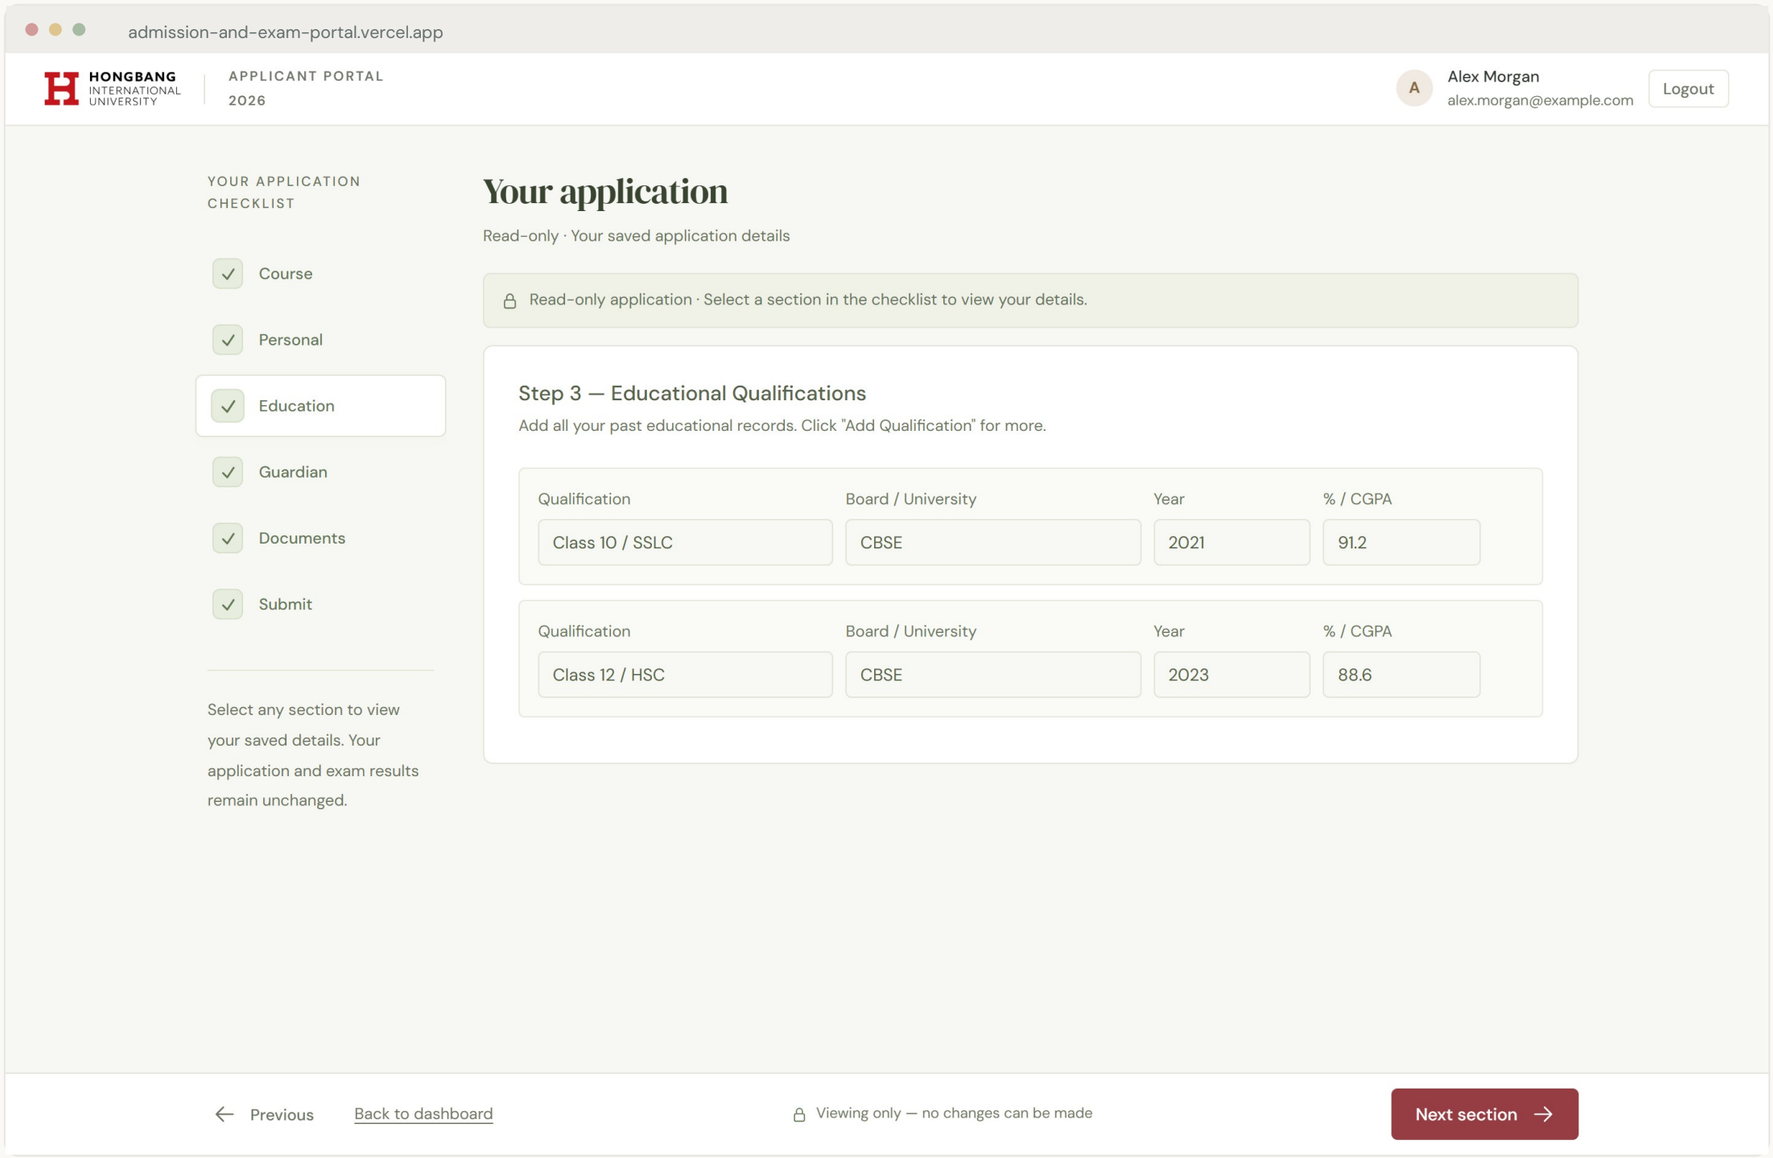

Submitted information is available in a read-only view.

AFTER SUBMISSION / 02

Review saved education details.

Students can navigate between completed sections and check the information they provided.

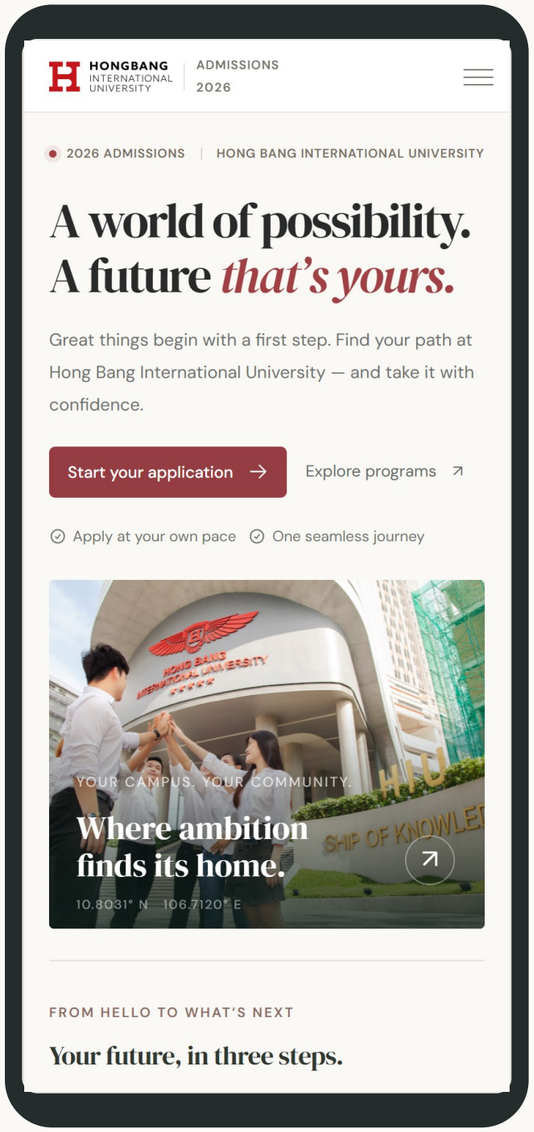

The read-only view preserves access to submitted information without editing.

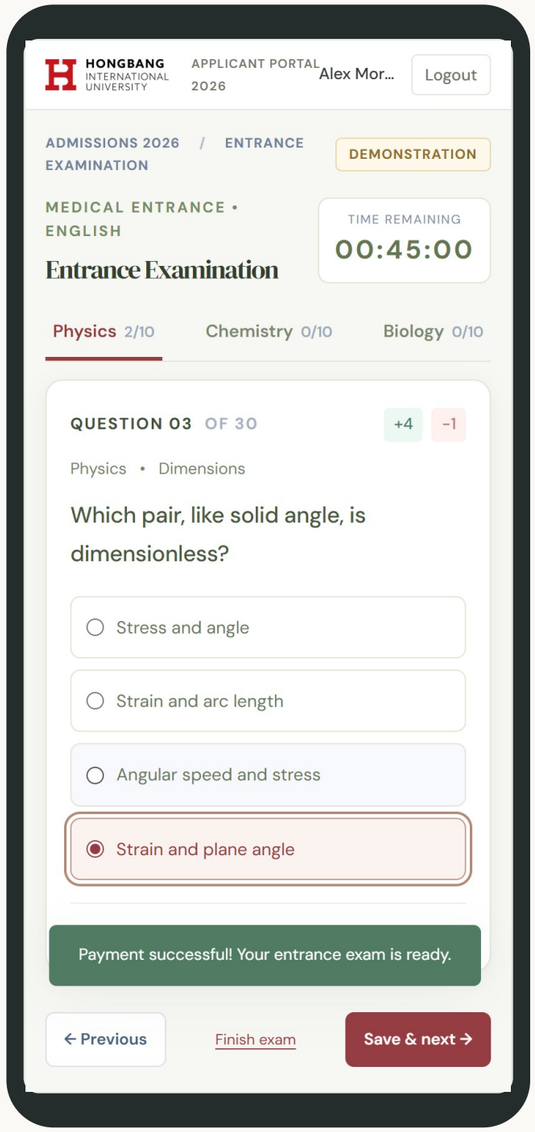

ACROSS DEVICES

Designed for smaller screens, too.

The public site and examination interface adapt to a mobile viewport.

University homepage

Examination workspace

EXPLORE THE DEMO
